Privatization in Eastern and Central Europe

Objectives, Constraints, and Models of Divestiture

Farid Dhanji
and
Branko Milanovic

The privatization process must be seen as transparent and absolutely above reproach and the rules of the "market" game must be clearly enunciated and adhered to in divestitures. Improvements in economic performance will be considerably diluted if the new market economy is based on an extensive network of special privileges.

The Policy, Research, and External Affairs Complex divides the 1992 Working Papers to disseminate the findings of work in progress and to encourage the exchange of ideas among Bank staff and all others concerned in development issues. These papers carry the names of the authors, reflect only their views, and should be used and cited accordingly. The findings, interpretations, and conclusions are the authors' own. They should not be attributed to the World Bank, its Board of Directors, its management, or any of its member countries.
