Problems Of Moral Philosophy Edited By Thomas Schroeder Translated By Rod:

Autonomy After Auschwitz Martin Shuster, 2024-05-31 Ever since Kant and Hegel the notion of autonomy the idea that we are beholden to no law except one we impose upon ourselves has been considered the truest philosophical expression of human freedom But could our commitment to autonomy as Theodor Adorno asked be related to the extreme evils that we have witnessed in modernity In *Autonomy after Auschwitz* Martin Shuster explores this difficult question with astonishing theoretical acumen examining the precise ways autonomy can lead us down a path of evil and how it might be prevented from doing so Shuster uncovers dangers in the notion of autonomy as it was originally conceived by Kant Putting Adorno into dialogue with a range of European philosophers notably Kant Hegel Horkheimer and Habermas as well as with a variety of contemporary Anglo American thinkers such as Richard Rorty Stanley Cavell John McDowell and Robert Pippin he illuminates Adorno's important revisions to this fraught concept and how his different understanding of autonomous agency fully articulated might open up new and positive social and political possibilities Altogether *Autonomy after Auschwitz* is a meditation on modern evil and human agency one that demonstrates the tremendous ethical stakes at the heart of philosophy

A Human Right to Culture and Identity Janne Mende, 2016-06-15 Is it desirable or even necessary to have distinct human rights for cultural identities Do different conceptions of culture and identity and their potential to frame human rights violations as culturally appropriate complicate the question How should a human right to collective identity be outlined Claims to human rights as applying to a whole ethnic religious or cultural group instead of the individual prove to be complex This book reveals the pitfalls benefits and demands that surround the debate for and against culture and identity in human rights It connects a continuous and nuanced theoretical debate with highly topical empirical findings about collective rights for indigenous groups which for centuries have been suppressed and marginalized and now stand at the forefront of successfully demanding a human right to their own culture and distinct identity This book shows the ambivalences of those demands and discusses solutions so that human rights neither exclude marginalized cultural groups nor reproduce rigid distinctions between seemingly exclusive cultures

Problems of Moral Philosophy Theodor W. Adorno, 2014-11-05 This volume makes Adorno's lectures on the problems of moral philosophy available for the first time to English speaking readers It is one of several volumes of Adorno's unpublished writings which are currently being published in Germany and which will be published in translation by Polity The book is organized around an account of Kant's moral theory and introduces most of the central topics of Adorno's far more difficult work *Negative Dialectics* He examines concepts such as the primacy of practical reason the relation between freedom and experience and the desubstantialization of moral thought These and other concepts are discussed in an accessible and entertaining style which is very different from the rest of Adorno's published work *Problems of Moral Philosophy* will be an important resource for scholars drawing on Adorno's thought and its nature as a lecture course makes

it a very useful and accessible introduction for students to Adorno s ideas about moral philosophy It will be of great interest to those working in philosophy and in social and political thought **The Rights of Strangers** Georg Cavallar,2017-07-05

This study investigates the thinking of European authors from Vitoria to Kant about political justice the global community and the rights of strangers as one special form of interaction among individuals of divergent societies political communities and cultures Taking an interdisciplinary approach it covers historical material from a predominantly philosophical perspective interpreting authors who have tackled problems related to the rights of strangers under the heading of international hospitality Their analyses of the civitas maxima or the societas humani generis covered the nature of the global commonwealth Their doctrines of natural law ius naturae were supposed to provide what we nowadays call theories of political justice The focus of the work is on international hospitality as part of the law of nations on its scope and justification It follows the political ideas of Francisco de Vitoria and the Second Scholastic in the 16th century of Alberico Gentili Hugo Grotius Samuel Pufendorf Christian Wolff Emer de Vattel Johann Jacob Moser and Immanuel Kant It draws attention to the international dimension of political thought in Thomas Hobbes John Locke Jean Jacques Rousseau David Hume Adam Smith and others This is predominantly a study in intellectual history which contextualizes ideas but also emphasizes their systematic relevance **Paperbound Books in Print** ,1992 **The Publishers' Trade List Annual** ,1985
