Sea Shepherd My Fight For Whales And Seals:

Sea Shepherd Paul Watson, Warren Rogers, Joseph Newman, 1982 Records in detail Watson's heroic war against the whalers and seal hunters who are decimating the animal populations **From Environmental Action to Ecoterrorism?** Gerry Nagtzaam, 2017-01-27 This book scrutinizes the growth of the eco terrorism movement operating on a global scale focusing on the main groups and their more radical offshoots both historically and those currently active These include Earth First the Earth Liberation Front the Animal Liberation Front and the Sea Shepherd Conservation Society It critically examines how these groups form and how they have evolved their key personnel their strategies and tactics principles motivating philosophies and attitudes to violence Specifically the book seeks to understand whether such groups inevitably evolve from activists to militants to terrorists as the literature suggests Lastly it considers the future of such groups asking whether they will become more prominent as more people become ecologically aware and as global environmental conditions deteriorate or whether such groups have peaked as a force for environmental change International Environmental Law Gerry Nagtzaam, Evan van Hook, Douglas Guilfoyle, 2019-10-23 This book seeks to better understand how International Environmental Law regimes evolve The authors address throughout the major environmental economic and political tensions that have both shaped and constrained the evolution of international environmental policy within regimes and its expression in international legal rule and norm development Readers will gain an increased understanding of the growing role played by non state actors in global environmental governance including environmental non government organisations scientists the United Nations and corporations The authors also look ahead to the future of International Environmental Law evaluating key challenges and decisions that the discipline will face The text is clear concise and accessible It is ideally suited to students and professionals interested in International Environmental Law and individuals who are intrigued by this dynamic area of law Sea Shepherd Claude G. Berube, 2021 **The Lost and Left Behind** Terry Glavin, 2013-01-25 Ecologists are calling the age we live in the Sixth Great Extinction The world is losing more than animal and plant species We are also losing the vast human legacy of languages and with it ways of living seeing and knowing Glavin sets off in pursuit of the very things we're losing a distinct species every ten minutes a unique vegetable variety every six hours an entire language every two weeks Along the way he encounters some of the world's wonderful rare things a mysterious Sino Tibetan song language a Malayan tiger the last of its kind and a strange tomato that tastes just like black cherry ice cream And he finds hope in the most unlikely places a macaw roost in Costa Rica a relic community of Norse whalers and the vault beneath the Royal Botanic Gardens at Kew A fresh narrative take on the usual doom and gloom environmentalism The Lost and Left Behind draws upon zoology biology ecology anthropology and mythology to uncover the hidden story of a long human struggle to conserve the living things of the world A thoughtful and engaging book Times Literary Supplement A wise and eloquent writer whose clear eyed intelligence explores our conflicted relationship with nature What Glavin has to tell is urgent

important and well said Ronald Wright author of *A Short History of Progress* An urgent necessary book Glavin writes with both passion and authority Mark Abley author of *Spoken Here Travels Among Threatened Languages* **American Environmental Leaders: M-Z** Anne Becher, 2008 A collection of biographies of the most important figures in American environmentalism from publisher description Whale Nation Heathcote Williams, 1988 The Animal Rights Reporter, 1990 Great Events from History II.: 1973-1985 Frank Northen Magill, 1995 Waiting for the Macaws Terry Glavin, 2006 Trashing the Economy Ron Arnold, Alan M. List, 1993 Is ecological sabotage a prank or terrorism Do women hold the key to rethinking environmentalism Are ecoactivists Goliaths of Doom Can radical and mainstream ecologists find common ground The readings in this book explore these and many other questions challenging conventional thinking about our relationship to the environment Unique among books on environmental ethics this anthology deals with themes of deep ecology ecofeminism and environmental activism considered radical stands by most environmental moderates On a philosophical level the selections present thought provoking responses to issues such as our ethical obligations to each other and nonhuman parts of nature the personal and social responsibilities of men and women to each other and proper personal and social reactions to the degradation of nature As concrete calls to action especially in the case of ecotage exponents of radical environmentalism often advocate measures more moderate environmentalists find ethically unacceptable both points of view are presented in this collection However as the editor of this provocative anthology states understanding this movement can help moderates sharpen their resolve to do more about environmental problems and find solutions which will check the relentless consumption of wild nature *Information America* Tracy Davis, Patricia A.
