 Publishers Weekly **The Seal Oil Lamp** , Catalogue of the Exhibit of Norway at the World's Columbian Exposition,
Chicago, 1893 Norway,1893 **Cold Words** Bernadette Hince,2025-04 This ice breaking book collects the English words of
 the Antarctic and the Arctic for the first time These words relate to weather ice and snow auroras clothes food housing social
 structures wildlife plants politics as well as many other aspects of polar life The terms are presented with scientific precision
 a helpful interpretative commentary and moments of whimsy Apart from Antarctica and the Arctic the regions covered here
 stretch to places as remote as the Faroe Islands Iceland Tristan da Cunha and the Falkland Islands Seal Fiona,1995 The
 story of a struggle to save the seals of Islay a Hebridean Isle The seals not only have man to contend with but a deadly virus
 as well B W col illus *The Ice Hunters* Shannon Ryan,1994 The demand for oil to light and lubricate the industrial world
 changed the face of much of the planet Newfoundland was part of this widespread transformation as migratory cod
 fishermen settled here in the early 1800s in order to hunt seals in late winter and early spring The seal fishery brought
 prosperity and growth and shaped this new society but seal hunters and their families paid a heavy human cost in lives lost
 and suffering experienced The traditional oil industries were doomed with the discovery of mineral oils and the ha essing of
 electricity and Newfoundland along with other societies faced painful adjustments while searching for alte ative industries
 However while its place in the economy declined the seal fishery left an indelible imprint on Newfoundland s culture and
 identity This study with its tables maps and illustrations examines the history of the Newfoundland seal fishery from its
 origins up to 1914 ranging in scope from the life of the hunter on the ice flows to the demands of the consumer in the market
 place Shannon Ryan was bo in riverhead Harbor Grace Newfoundland and educated at Memorial University of Newfoundland
 BA Ed BA and MA and the University of London PH He worked for nine years as a schoolteacher and principal and in 1971 he
 was appointed to the faculty of History His publications and presentations are in the fields of Newfoundland Maritime
 fisheries and oral history He served as president of the Newfoundland Historical society during 1984 1988 as Newfoundland
 s representative on the Social sciences and humanities research council of Canada during 1989 1993 and was elected a
 fellow of the Royal society in 1988 *Mining Accidents and Their Prevention* Sir Frederick Augustus Abel,1889 **The**

The Age of Technology is nowhere made more personal than at home. Modern convenience shapes our daily routine making today's American house a place of comfort the like of which has never been known. Yet of all aspects of modern technology it is the evolution of what is in the household that has been least written about. In *The Comforts of Home* an unprecedented work written for a general audience with no particular knowledge of science or technology, social historian Merritt Ierley weaves in aspects of architecture, social history, and technology to present an underexplored but central feature of American cultural identity: how our lives are shaped by the domestic technology around us. Here we see a simple brick cubicle with a stove inside; it evolves into central heating, a barrel with a large handle becomes the automatic washing machine, a box lined with charcoal birth the modern refrigerator, and the modern toilet develops from a rudimentary stone trough. *The Comforts of Home* charts the evolution of mechanical systems from central heating to lighting, from kitchen to bathroom, from washing machine to vacuum cleaner, on which we all depend and without which most of us could hardly imagine surviving. It is also the story of the people responsible for the revolution of convenience in the home: people like Benjamin Thompson, Count Rumford, a British Loyalist inventor and spy who fled his home in the American colonies in 1776. His genius of invention returned in the form of inventions with practical impact on everyday life in the household. Or like architects Benjamin Latrobe and James Gallier Jr who defined the cutting edge of modern convenience for their times. *The Comforts of Home* is also the story of ordinary people like David and Ida Eisenhower who provided their son Dwight and his brothers with a home that increased in comfort the way most American homes did, bit by bit, appliance by appliance, advance by advance, as new technology became cheaper and more widespread and more a part of everyday life. The story of the convenience of modern living is compellingly traced in this delightfully written book, illustrated with nearly 200 photographs and vintage illustrations. Front and back illustrations c. 1892 show a Standard Gas
