Illustrierter Katalog der ... Internationalen Special-Ausstellung der Graphischen Künste in Wien, 1883 We Gather Together Charles C. Eldredge, 2022-01-18 The mutual history of art, agriculture and American identity as told through the theme of the harvest. The harvest has traditionally been a productive season both on American farms and in its artists' studios. Before the early nineteenth century the ideal of the Jeffersonian yeoman, singly cultivating a subsistence plot for family use, dominated the American imagination. After World War II the advent of big agribusiness proved less immediately attractive for artists. In *We Gather Together* Charles C. Eldredge examines the period in between when many Americans were farmers and much of America was farmland. Organized in a series of case studies, each devoted to a single crop, *We Gather Together* initially focuses on familiar commodity crops such as corn, wheat and potatoes and then expands to other yields by Native American harvesters and California floriculturists as well as winter ice cutters and coastal seaweed gatherers. This novel history of agriculture and art traces parallel developments on land and canvas, highlighting breakthroughs in each field. Artists such as Winslow Homer, Doris Lee and Georgia O'Keeffe are joined by innovators in agriculture, whether mechanical inventors such as Eli Whitney, John Deere and Cyrus McCormick or genetic hybridizers such as Luther Burbank, W. Atlee Burpee and Theodosia Shepherd. Surveying an astonishing amount of material and a wide range of paintings, prints and other artworks from the nineteenth century to the mid twentieth century, *We Gather Together* gorgeously demonstrates how the use of agricultural metaphors permeated American visual culture. The harvest we see here came to signify and dominate politics, poetry and popular culture, ultimately representing a primary facet of American identity and nationhood.

The book enters Brittany waters near Cancale and follows the whole 300 mile coastline with its rivers, estuaries and offshore islands, looking into every nook and cranny on the way. This stylish second edition includes many new anchorages and is lavishly illustrated in colour, while the anchorage charts have been redrawn and verified against the Admiralty or French SHOM charts. The pilotage sections are peppered with short features on the maritime traditions, life and history of this inimitable coast.
