Beyond Getting By Holly Trantham, 2024-04-23 A beautiful full color guide to living with money not for money packed with fun tangible advice from the women behind The Financial Diet Beyond Getting By will make you feel better not worse about your money and your life Tiffany the Budgetnista Aliche New York Times bestselling author of Get Good with Money The girlboss came in many forms and she struggled valiantly against our increasing exhaustion at her brand of pinkwashed capitalism as liberation but it's time to put her to rest Yes money is essential to life and managing it well can be the difference between freedom and constraint But once you have enough the focus should be on converting it into things that are meaningful to you more time with the people you love more creativity more days to just vibe on the couch In Beyond Getting By the women behind The Financial Diet teach you how to create and pay for a life you truly enjoy and that you can be proud of They show you how to push beyond what society tells you will make you happy to determine what you actually want with specific advice and interactive exercises on how to define your own budget philosophy by no longer chasing fast fashion and instant gratification instead allowing the unlikely duo of Sigmund Freud and Elizabeth Warren to guide your budgeting how the idea that we have equal opportunity is bullshit and how to start a self advocacy journal in order to kill it in that next raise negotiation how to stave off burnout by valuing your personal life with as much care as your career in addition to figuring out the true worth of your time Beyond Getting By is for the woman interested in a life where money is simply a tool and never a reflection of her worth It's for the woman who understands the limits of gamifying personal finance and that following trends isn't the same as creating a sustainable wealth generating plan for the future *Everything is Design: The Hidden Ethics of Our Objects and Public Spaces* Alan J. Reid, 2025-05-06 Ethics to put it concisely is mindful well being It is a set of standards that guides how we treat ourselves one another and the environment When we design things for public use we also communicate an ethical perspective When we use things designed for us we adopt their ethics This book synthesizes several different disciplines as they relate to design ethics and the built environment Our objects according to philosophers like Ihde Verbeek and Latour mediate our experiences with the world around us Through their designs and by extension our perceived affordances we largely comply with what our objects and spaces want us to do At the micro level the phones in our pockets command our attentive processes in order to feed an attention economy At the macro level urban planning and infrastructure can both promote inclusivity and foment violence We are deeply intertwined with the objects and spaces that have been designed for us Baked into every object process system and environment are the remnants of the designer's morals ethics values and biases Importantly this book seeks to cultivate mindfulness of the reader's interactions with their surrounding world providing them with a line of inquiry that questions areas of unethical design in their built environment and offers useful critiques and new solutions to these ethical dilemmas We often have the power to reject those things that are irresponsibly designed and unethical in nature and it is through this agency as users that we can demand better from

designers developers and companies It is imperative to understand our mediated relationships with the built environment that surrounds us and the objects within it this can help explain our behaviors and empower us to make ethical decisions that serve future generations
