Generative AI for Effective Software Development Anh Nguyen-Duc, Pekka Abrahamsson, Foutse Khomh, 2024-05-31

This book provides a comprehensive empirically grounded exploration of how Generative AI is reshaping the landscape of software development. It emphasizes the empirical evaluation of Generative AI tools in real world scenarios offering insights into their practical efficacy limitations and impact. By presenting case studies surveys and interviews from various software development contexts the book offers a global perspective on the integration of Generative AI highlighting how these advanced tools are adapted to and influence diverse cultural organizational and technological environments. This book is structured to provide a comprehensive understanding of Generative AI and its transformative impact on the field of software engineering. The book is divided into five parts each focusing on different aspects of Generative AI in software development. As an introduction Part 1 presents the fundamentals of Generative AI adoption. Part 2 is a collection of empirical studies and delves into the practical aspects of integrating Generative AI tools in software engineering with a focus on patterns methodologies and comparative analyses. Next Part 3 presents case studies that showcase the application and impact of Generative AI in various software development contexts. Part 4 then examines how Generative AI is reshaping software engineering processes from collaboration and workflow to management and agile development. Finally Part 5 looks towards the future exploring emerging trends future directions and the role of education in the context of Generative AI. The book offers diverse perspectives as it compiles research and experiences from various countries and software development environments. It also offers non technical discussions about Generative AI in management teamwork business and education. This way it is intended for both researchers in software engineering and for professionals in industry who want to learn about the impact of Generative AI on software development.
