Online TV Catherine Johnson,2019-01-04 With growth in access to high speed broadband and 4G and increased ownership of smartphones tablets and internet connected television sets the internet has simultaneously begun to compete with and transform television Online TV argues that these changes create the conditions for an emergent internet era that challenges the language and concepts that we have to talk about television as a medium In a wide ranging analysis Catherine Johnson sets out a series of conceptual frameworks designed to provide a clearer language with which to analyse the changes to television in the internet era and to bring into focus the power dynamics of the online TV industry From providing definitions of online TV and the online TV industry to examining the ways in which technology rights interfaces and algorithms are used to control and constrain access to audiovisual content Online TV is a timely intervention into debates about contemporary internet and television cultures A must read for any students scholars and practitioners who want to understand and analyse the ways in which television is intertwining with and being transformed by the internet

The Arts of Logistics Michael Shane Boyle,2024-09-10 We live in a world where nothing is untouched by supply chains art included In this major contribution to the study of contemporary culture and supply chains Michael Shane Boyle has assembled a global inventory of aesthetics since the 1950s that reveals logistics to be a pervasive means of artistic production The Arts of Logistics provides a new map of supply chain capitalism scrutinizing how artists retool technologies designed for circulating commodities What emerges is a magisterial account of the logistics revolution that foregrounds the role played by art in the long downturn of global capitalism With chapters on art produced from technologies including ships barrels containers and drones Boyle narrates the long history of art s connection to

logistics beginning in the transatlantic slave trade and continuing today in Silicon Valley's dreams of automation. The global reach of the artists considered reflects the geographies of supply chain capitalism itself. In taking stock of how performance sculpture and popular culture are entangled in trade and racialized labor regimes, Boyle profiles influential work by artists such as Christo and Allan Kaprow alongside that of contemporary figures including Cai Guo Qiang and Selina Thompson. This incisive study demonstrates that art and logistics are linked by the infrastructures and violence that keep supply chains moving.

To Stand with Palestine Karam Dana, 2025-02-04. In recent years, attitudes in the United States toward the Palestinian cause have shifted dramatically. Although Palestinians have long been demonized in U.S. media and politics, their struggle portrayed as illegitimate, emergent progressive voices increasingly challenge the status quo on Israel and Palestine and express solidarity with Palestinian resistance. What accounts for this change and its evolution? This book provides a new lens on activism around Palestinian issues, demonstrating how the global Palestinian diaspora has driven transnational political movements. Karam Dana explores the ways that exile has shaped Palestinian identity and allowed for new forms of global activism. He examines the social, political, economic, and technological forces that have created space for Palestinian voices to be heard by wider audiences worldwide. Drawing on interviews with scholars and advocates, including members of the Palestinian diaspora and Jewish American activists, as well as public opinion data and media analysis, Dana traces how global Palestinian communities have influenced American views. He addresses the backlash against pro-Palestinian advocacy but argues that solidarity with Palestinians both in the United States and globally will continue to strengthen. Timely and insightful, To Stand with Palestine offers an inside look at how Palestinians have shared their story with the world and why sympathy for their plight is growing, with significant implications for the global political landscape.

From Womb to Bloom Karren Kae Kearney, 2025-04-16. From Womb to Bloom Integrating the Inner Child. Children's third in The Autobiographical Trilogy of Kae K series is as a cross between the saying "I make plans and God laughs" and the book The Little Engine Who Could, also described as Flora Nightingale meets Professor Higgins. This book will especially be of interest to readers who are in any twelve-step fellowship, have loved ones dealing with addiction, or are addiction and mental health professionals. From Womb to Bloom continues with the female protagonist author who is a retired licensed vocational nurse (LVN), a registered addiction specialist, as well as a recovering alcoholic, food addict, and sex and love addict in her thirty-eighth year of recovery. The author gives an honest account of what it takes to maintain sobriety and abstinence in food addiction over years of slips and relapses. The love story between the English gentlemen from London deepens as they deal with loss, health issues, and death, while the unstoppable faith-filled heroine focuses on an intense level of recovery and integrating her inner child. From Womb to Bloom is a story of hope and love filled with the miracles and strength sobriety brings.
