Wissenschaft unter Beobachtung Hildegard Matthies, Dagmar Simon, 2009-04-26 Die Evaluation wissenschaftlicher Leistung spielt eine wichtige Rolle seit es Wissenschaft gibt In diesem Band wird die Qualitätssicherung in den Wissenschaften umfassend systematisch und kritisch untersucht Dabei werden auch die unerwünschten Effekte in den Blick genommen die man bei Evaluationen mittlerweile feststellen kann *The Changing Governance of the Sciences* Richard Whitley, Jochen Gläser, 2008-03-20 This book arose from a conversation between Lars Engwall and Richard Whitley during the 2003 European Group for Organization Studies Colloquium in Copenhagen about important topics for future research We agreed then and this has been amply confirmed by subsequent events that the proliferation of research evaluation schemes especially in Europe was an important feature of the changing relationships between the state universities and scientific research more generally which needed systematic and comparative analysis With the support of the Bank of Sweden Tercentenary Foundation this discussion led to workshops in Uppsala and Manchester involving colleagues from Australia Germany and the Netherlands at which the main framework for such an analysis was developed This framework then formed the basis for the conference at Bielefeld in 2005 at which earlier versions of most of the papers in this volume were presented and extensively discussed We are very grateful for the support of the PRIME network of the European Commission and the Max Planck Institute for the History of Science for this conference as well as the invaluable efforts of Peter Weingart of the University of Bielefeld We are also greatly indebted to the members of the Editorial Board who commented on various drafts of these papers as well as to Aant Elzinga Stefan Kuhlmann Philippe Laredo Arie Rip and Nic Vonortas who acted as referees **Big Data on Campus** Karen L. Webber, Henry Y. Zheng, 2020-11-03 How data informed decision making can make colleges and universities more effective institutions The continuing importance of data analytics is not lost on higher education leaders who face a multitude of challenges including increasing operating costs dwindling state support limits to tuition increases and increased competition from the for profit sector To navigate these challenges savvy leaders must leverage data to make sound decisions In Big Data on Campus leading data analytics experts and higher ed leaders show the

role that analytics can play in the better administration of colleges and universities Aiming at senior administrative leaders practitioners of institutional research technology professionals and graduate students in higher education the book opens with a conceptual discussion of the roles that data analytics can play in higher education administration Subsequent chapters address recent developments in technology the rapid accumulation of data assets organizational maturity in building analytical capabilities and methodological advancements in developing predictive and prescriptive analytics Each chapter includes a literature review of the research and application of analytics developments in their respective functional areas a discussion of industry trends examples of the application of data analytics in their decision process and other related issues that readers may wish to consider in their own organizational environment to find opportunities for building robust data analytics capabilities Using a series of focused discussions and case studies *Big Data on Campus* helps readers understand how analytics can support major organizational functions in higher education including admission decisions retention and enrollment management student life and engagement academic and career advising student learning and assessment and academic program planning The final section of the book addresses major issues and human factors involved in using analytics to support decision making the ethical cultural and managerial implications of its use the role of university leaders in promoting analytics in decision making and the need for a strong campus community to embrace the analytics revolution
