**College Disrupted** Ryan Craig, 2025-09-23 For nearly two decades pundits have been predicting the demise of higher education in the United States Our colleges and universities will soon find themselves competing for students with universities from around the world With the advent of massive open online courses MOOCs over the past two years predictions that higher education will be the next industry to undergo disruption have become more frequent and fervent Currently a university's reputation relies heavily on the four Rs in which the most elite schools thrive rankings research real estate and rah i e sports But for the majority of students who are not attending these elite institutions the four Rs offer poor value for the expense of a college education Craig sees the future of higher education in online degrees that unbundle course offerings to offer a true bottom line return for the majority of students in terms of graduation employment and wages College Disrupted details the changes that American higher education will undergo including the transformation from packaged courses and degrees to truly unbundled course offerings along with those that it will not Written by a professional at the only investment firm focused on the higher education market College Disrupted takes a creative view of the forces roiling higher education and the likely outcome including light hearted real life anecdotes that illustrate the author's points **The Racket** Conor Niland, 2024-06-06 THE NO 1 BESTSELLER WINNER OF THE WILLIAM HILL SPORTS BOOK OF THE YEAR AWARD 2024 As elegant and powerful as a Federer backhand It's Kitchen Confidential for tennis Ed Caesar Well worth a read if you want the inside track on life on the lower rungs of the tennis circuit Warts and all Judy Murray When Conor Niland was 16 he was chosen to hit with Serena Williams at Nick Bollettieri's famed tennis academy Conor the Irish junior number one was feeling a bit homesick Serena also 16 already owned her own house beside the academy Conor Niland knows what it's like when Roger Federer walks into the dressing room Ciao bonjour hello and he has had the exquisitely terrible experience of facing Novak Djokovic in the world's biggest tennis stadium while suffering from food poisoning But he never reached the very top The Racket is the story of pro tennis's 99% the players who roam the globe in hope of climbing the rankings and squeaking into the Grand Slam tournaments It brings us into a world where a few dozen super rich players travelling with coaches and physios share a stage with lonely touring pros whose earnings barely cover their expenses Painting a vivid picture of the social dynamics on tour the economics of the game and the shadows cast by gambling and doping The Racket is a witty and revealing underdog's memoir and a unique look inside a fascinating hidden world Conor Niland may only have managed a career high ranking of 129 only that is some achievement in itself but The Racket his account of how he managed this is up there with the best half dozen books on tennis ever written Geoff Dyer Blending a passion for his chosen sport with a realistic study of the traumas of the tour The Racket offers a brilliant insight from Ireland's greatest ever tennis player John Boyne A brilliant unvarnished look at a brutal sporting life Michael Foley Sunday Times One of the best Irish sports books of the last decade Kieran Shannon Irish Examiner This will rightly join the list of The Best

Irish Sports Books Ever Written A superb insight into professional tennis from the ground up Paul Howard I ate this book up reveals the sacrifices commitment and decidedly unglamorous side of life on the tennis circuit Sin ad Moriarty A really wonderful read Conor Niland has delivered an all timer for tennis and sports journalism Ashlee Vance Genuinely such a brilliant book a brilliant read Ciar n Murphy Second Captains Unsparing in his depiction of the drudgery of tennis Mike Jakeman Spectator Compelling Tennis365 com Brilliant book I inhaled it Jonathan Drennan Sydney Morning Herald Devoured it in a day I ve read many tennis autobiographies this is one of the very best Charles Arthur If it s not a contender for Sports Book of the Year the world has gone mad Fionn Davenport Off The Ball Sure to become a must read of the tennis literature canon Paul Perry Witty and insightful an homage to the game he clearly still loves Anna Carey Irish Times Honest and droll Laura Slattery Irish Times His funny sometimes painful memoir is a brilliant insider s look at the brutally competitive world of tennis as well as a meditation on moments missed by inches Sunday Independent A crushing reminder of the grist from which sporting greatness emerges The Economist A visceral melancholy and often self lacerating book History is usually written by the winners but this intelligent unvarnished emotionally draining memoir shows why an also ran s perspective can be just as valuable Andrew Lynch The Business Post A brutally honest assessment of his career and the effort it took to take him to the margins of the world s elite Tom Lyons The Currency An excellent book Denis Hurley Irish Farmers Journal A searingly honest account of the real world of tennis Irish Country Living One of the great sports memoirs Funny moving informative it s got the lot Tony Parsons     Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis     **The Abercrombie Age** Myles Ethan Lascity, 2024-10-01 Be popular and good looking it s the key to a happy life Luckily with a bit of know how and money you too can have it all At least that s what teen pop culture was selling in surround sound at the turn of the millennium From movies like Clueless to TV s Dawson s Creek to the music videos on MTV s Total Request Live and

the catalogs of Abercrombie Fitch a consumer minded ethos drove pop culture storytelling as millennials came of age in the late 1990s and early 2000s But in the long shadow of the Great Recession the upwardly mobile aspirations fostered by the era s popular culture and media seem to have been thwarted Many millennials today lack the wealth their parents had at the same age and the gaps between rich and poor rival those of the Gilded Age The Abercrombie Age reconsiders teen popular culture from the turn of the twenty first century revealing how it told young people that life not only could but surely would get better Far from frivolous or forgettable the era s superficial materialistic culture sold millennials unrealistic expectations of what life could offer setting up a stark juxtaposition with the realities of today *U.S. News & World Report* ,1996 *A Is for Admission* Michele A. Hernández,2010-10-28 A former admissions officer at Dartmouth College reveals how the world s most highly selective schools really make their decisions **Restoring the Promise** Richard K. Vedder,2019-05-01 Higher education in America is in crisis Costs are too high learning is too little and the payoff to students and society is increasingly problematic In *Restoring the Promise* Richard Vedder shows how the precarious position of colleges and universities results from a mostly unsuccessful expansion of governmental involvement in the academy especially at the federal level The book examines today s most serious issues in higher education including free speech and academic freedom tuition and other costs culture and curricula governance gender race and diversity due process admissions student loans and much more It diagnoses problems and identifies solutions For example the total cost of college per student in the United States is now higher than in any other country When combining the monetary costs of college with the opportunity costs of losing years of labor to the economy the true cost of higher education to American society well exceeds one trillion dollars annually Yet despite American higher education s immense price tag students are learning less than ever before and continue to be underemployed The book discusses the three I s of university reform information incentives and innovation Without information it is impossible for taxpayers and governing authorities to ensure that public education spending truly furthers the broader interests of society rather than the narrow interests of faculty and administrators Shaping incentives for management would help to reduce costs and improve quality Business practices such as Responsibility Centered Management RCM for example allow profit to motivate efficiency and encourage learning outcomes And expanding the use of innovation in technology and open online courses along with relinquishing old rules such as tenure and three month summer vacations offer new hope for institutions of higher education The book discusses such additional reforms as the following Ending or revising the federal student financial aid program Giving departments or even professors a share of overall revenue based on student enrollments in their classes Departments or professors would then be required to pay their share of travel building rental maintenance utilities and other such costs from the revenues they receive Providing earnings data on former students by college five ten or fifteen years after matriculation Prospective students and parents as well as lawmakers and oversight officials would be assisted regarding school successes and failures Increasing faculty teaching loads Instituting

three year degrees and year round instruction Ending discrimination against for profit schools Ending grade inflation Ending speech codes and other barriers to academic freedom Ending affirmative action and related diversity programs And more
