Maitland's Peripheral Manipulation Elly Hengeveld, Kevin Banks, 2005. This classic text has become one of the foundational texts for all modern manual therapists. The fourth edition has been extensively revised by two authors who have worked closely with Geoff Maitland and have added invaluable and up to date input in the revision of this new edition.

Physiotherapy for Children Teresa Pountney, 2007-09-13. A comprehensive clinical manual and reference on paediatric physiotherapy which examines all of the theoretical and clinical aspects of physiotherapy provision for children and young adults including Neurology, Cardio respiratory, Musculoskeletal, Oncology and palliative care, Mental health, Acquired brain injury. Dr Teresa Pountney heads up a team of experienced practitioners who cover a range of conditions from those experienced by the typically developing child to those with disabilities and diseases. The changing needs of children with long term conditions are described as well as methods of service delivery to enable children and families to benefit as much as possible from their treatment. The different settings in which physiotherapy is provided for children, school, home and hospital, is described in addition to strategies and legislation relating to this. Strong emphasis on evidence based practice. Case studies illustrate practical applications of concepts and techniques and offer clinical reasoning behind decision making. Outcome measures discussed in depth. Over 14 different assessments are reviewed. Up to date, most recent research and newest legislation taken into account.
