Death & Dying in Hispanic Worlds Debra D. Andrist, 2020-09-28 The dispassionate intellectual examination of the concepts of death dying contrasts dramatically with the emotive grieving process experienced by those who mourn Death dying are binary concepts in human cultures Cultural differences reveal their mutual exclusiveness in philosophical outlook language and much more Other sets of binaries come into play under intellectual

consideration and emotive behavior which further divide and shape perceptions beliefs and actions of individuals and groups The presence or absence of religious beliefs about life and death and disposition of the body and or soul are prime distinctions Likewise the age old binary of reason vs faith To many observers the topic of death and dying in the Hispanic cultural tradition is usually limited to that of Mexico and its transmogrified religious festival day of Dia de los Muertos The studies presented in the ten chapters and editorial introductions to the themes of the book seek to widen this representation and set forth the implications of the binary aspects of death and dying in numerous cultures throughout the so called Hispanic world including indigenous and European derived beliefs and practices in religion society art film literature Contributions include engagement with the pre Hispanic world Picassos poetry cultural norms in Cuba and the literary works of Jorge Luis Borges and Gabriel Garcia Marquez Underlying the arguments presented is Saussurean structuralist theory which provides a platform to disentangle cultural context in comparative settings

se Walter Dora Maar Fran oise Gilot and Jacqueline Roque These six extraordinary women loved and inspired Pablo Picasso They frequently appear as the women in his portraits but they also pursued their own ambitions in dance writing painting and more Each transformed Picasso s life and work and he theirs Yet they have long been dismissed as simply passive models or muses In a groundbreaking and deeply researched account acclaimed author Sue Roe brings to light the true stories of the women in Picasso s life Using recently discovered source material and hitherto overlooked firsthand accounts Roe positions each woman not as a footnote in Picasso s biography but center stage from their own point of view All six lived remarkable unconventional lives on their own terms Each was tested not only by the subterfuges and betrayals of the art world s most notorious womanizer but also by the wider social turbulence of their time Hidden Portraits traces each woman s story across nearly a century from bohemian early twentieth century Montmartre to the glittering Riviera in the 1920s from Paris under Nazi occupation to Picasso s death and beyond Roe unearths the ways these women influenced every stage of Picasso s work from his sketches to masterpieces like Guernica Under her eye we recognize Fernande in the early Rose Period paintings Olga draped across an armchair Marie Th r se asleep in a painting of a woman dreaming Dora in Picasso s weeping women Fran oise in his paintings of domestic life Jacqueline as the raven haired figure frequenting his late in life drawings Spanning seventy years and traveling between the caf s of Paris and the C te d Azur Roe reclaims a set of brilliant women and in the process rewrites a vital chapter in the history of modern art
