## **Picking Winners At The Harness Races:**

**Bet to Win at the Harness Races** Joseph Brierly, 2012-02-08 This book by Dr Joseph E Brierly offers harness race bettors an extensive professional statistical analysis of the harness race Everything imaginable impacting the outcome of a harness race is found some where in this book For example questions like what are the best and worst post positions What variables impact success at picking winners What is the effect of a horse winning the last time out on the next race entered What difference does age and weight of the driver make Many such factors were statistically analyzed by the author over a seven year period No other book on the subject of betting harness races has ever accomplished this goal The statistical sampling on harness races was done over seven year period at a number of harness racetracks This book reveals the many winning secrets discovered through the statistical analysis by the author The author Dr Joseph E Brierly earned a Ph D in mathematics from the Wayne State University in 1975 As part of his graduate level Ph D program in mathematics he took many advanced courses in the theory of probability and statistics Later on Dr Brierly applied mathematics and statistics to optimizing logistics support for military systems Interest in applying mathematics and statistics to games of chance followed naturally from his education and experience background Dr Brierly spent most of his spare time during his over two year professional career pursuing the hobby of finding ways to optimize bets on harness horse racing and optimizing chances for winning a lottery A book on how to optimize chances at winning the library is available at Amazon com and the author s Ebay store DOULTONANDMORE The software system created by Dr Brierly for winning at the harness races is named INSTAN The system designed tested and operated by Dr Brierly enabled him to have winning seasons at the harness race tracks for over 20 years straight INSTAN includes two basic types of software an expert system and a simulation The simulation allows one to simulate a race before it occurs The simulation includes accurate handicaps for post position driver ability past performances weather conditions trainer and more The expert system permits statistically analyzing any combination of traits by sampling Both software programs within INSTAN were employed in composing this one of a kind book on harness race betting The pattern of the contents of the book is to investigate a number of complexes and traits to isolate their impact on earnings The complexes analyzed allow one to assess accuracy at winning a race and profitability simultaneously Many patterns leading to successful earnings are found in this book Anyone who employs the wisdom found in this book will no doubt become a better bettor and likely become a winner at the harness racetracks At the heart of winning at the race track is having understanding that competitor bettors do not have Any strategy could be profitable provided it is based on knowing ways to gain advantage by what the competition does not understand Whether betting perfectas trifectas superfectas daily doubles or just plain straight bets one can win only by having an edge on the other bettors The author has successfully made profits using a wide variety of bets verifying that any type bet can be profitable when made judiciously using statistical analysis found in this book Dr Brierly believes that gambling is the name of the game of life whether gambling on stocks

horse races or sports betting Life is a gamble Every day is a new day of chance taking Dr Brierly sees no downside to controlled gambling as long as one does not gamble more than what can be afforded to lose On the upside gambling is a great way to add zest to life It is guaranteed to give healthy adrenalin highs if done sanely It is a great hobby guaranteed to give many thrills

understand this attempt at becoming a master class handicapper But still I ve never been a big fan of a robust method of handicapping The type of analysis that takes into account every conceivable factor and then weighs all of these variables to make a selection I have attempted this type of handicapping but when I began to use angles for selecting winners I found that I was spending less time handicapping and I also discovered that I was winning at the same rate The angles I have written about are those I use betting at harness tracks in race books in Las Vegas Some of the angles in this book work better at some tracks than others but the ones I have included here work at the largest number of tracks that I have researched In a previous book I wrote 19 Valuable Horse Racing Betting Systems I explained angles for harness racing along with thoroughbred and quarter horse angles The three harness angles in that book have been reprinted in this book but everything else appears here for the first time The rules of the handicapping angles in this book are clearly explained and easy to use Here is the list of the angles Frequent Play Angles The Basic Elimination Method The Quick Rating Method for Harness Racing The Top Speed Rating Method The Median Speed Rating Method The Power Rating Method Spot Play Angles The Qualifier Advantage Morning Line Overlay The Non Winners of X Races Lifetime Angle Last Race Winner Top Speed Rating Second Race Back Lowest Purse Value Last 10 Top Earnings Last 4 starts Trotter Angles Tote Board Magic

**Betting on Horse Racing** Tony Warren, 2009 This book is designed for new horse race players who want to go from beginning to winning The information contained in a question and answer format explains the basics of wagering on horses how to place a wager and strategies for picking winners The author has been playing the horses for over 40 years and offers insights that even the most sophisticated players may not know

**Racetrack Betting** Peter Asch, Richard E. Quandt, 1986 A day at the races with its colorful variety and fact paced action appeals to people from all walks of life Not surprisingly the idea of going home with a few more dollars than when one arrived is part of horseracing s charm In this entertaining but substantive volume two distinguished economists who happen to be horseracing buffs outline

a tested strategy for placing bets that will increase the reader's chances of a happy outcome at the track. The authors are the first to point out that getting rich at the racetrack is unlikely. They do maintain, however, that with attention to their systematic approach, the racing fan can achieve the best possible chance at winning. In the process, the reader learns some of the most important measurement techniques in the social sciences as well as the basic methods of market analysis.
