Sex Preference And Family Essays On Law And Nature:

From Disgust to Humanity Martha Craven Nussbaum, 2010 Liberalismus und Konservatismus Jens Einfeld, 2006

English summary Jens Einfeld analyzes the influence of conservatism and liberalism on the legal debate over same sex marriages in the US In addition to discussing the philosophical differences between liberalism and conservatism in general he also deals with the political conflict between liberal and conservative constitutional theory which is caused by antagonistic attitudes of the good social order and the impact of this contrast on the controversy over the constitutionality of same sex marriages German description Jens Einfeld untersucht den Einfluss der politischen Ideen des Liberalismus und des Konservatismus auf die aktuelle Diskussion in den USA um die Legalisierung gleichgeschlechtlicher Ehen durch Gerichtsurteile die das Verbot der Ehe zwischen Personen gleichen Geschlechts für verfassungswidrig erklären Liberalismus und Konservatismus wirken nicht nur auf die allgemeine politische Diskussion um die gleichgeschlechtliche Ehe ein sondern auch und gerade auf die verfassungsrechtlichen Streitpunkte innerhalb dieser Debatte Der Autor geht davon aus dass gerade in der verfassungsrechtlichen Literatur und Rechtsprechung vom konkreten Anlass abstrahierbare Begründungsmuster und Argumentationsstrategien im Einsatz sind deren Ursprung Zusammenhang und Wirkung ohne die Verknüpfung mit den politischen Ideen von Konservatismus und Liberalismus unverständlich bleiben Dieser methodische Ansatz ermöglicht eine neue Perspektive auf die Debatte über die gerichtliche Legalisierung gleichgeschlechtlicher Ehen mit der sich unter anderem nachweisen lässt dass die Entscheidung dieses Streits in erster Linie nicht von juristischen Argumenten abhängt sondern von politischen Überzeugungen die eine bestimmte Begründungsstrategie erst auslösen

Same Sex Intimacies Catherine Donovan, Brian Heaphy, Jeffrey Weeks, 2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other Same Sex Intimacies gives vivid accounts of the different ways non heterosexual people have been able to create meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies

Women and Human Development Martha C. Nussbaum, 2000 Martha Nussbaum proposes a kind of feminism that is genuinely international

Against Marriage Clare Chambers, 2017-09-08 Against Marriage argues that marriage violates both equality and liberty and should not be recognized by the state Clare Chambers shows how feminist and liberal principles require creation of a marriage free state one in which private marriages whether religious or secular would have no legal status Part One makes the case against marriage

Chambers investigates the critique of marriage that has developed within feminist and liberal theory. Feminists have long argued that state recognised marriage is a violation of equality. Chambers endorses the feminist view and argues in contrast to recent egalitarian pro marriage movements that same sex marriage is not enough to make marriage equal. The egalitarian case against marriage is the most fundamental argument of Against Marriage. But Chambers also argues that state recognised marriage violates liberty including the political liberal version of liberty that is based on neutrality between conceptions of the good. Part Two sets out the case for the marriage free state. Chambers criticizes recent arguments that traditional marriage should be replaced with either a reformed version of marriage such as civil partnership or a purely contractual model of relationship regulation. She then sets out a new model for the legal regulation of personal relationships. Instead of regulating by status the state should regulate relationships according to the practices they involve. Instead of regulating relationships holistically assuming that relationship practices are bundled together in one significant relationship the marriage free state regulates practices on a piecemeal basis. The marriage free state thus employs piecemeal practice based regulation. It may regulate private marriages including religious marriages so as to protect equality. But it takes no interest in defining or protecting the meaning of marriage. *American Multicultural Studies* Sherrow O. Pinder, 2013

American Multicultural Studies Diversity of Race Ethnicity Gender and Sexuality provides an interdisciplinary view of multicultural studies in the United States addressing a wide range of topics that continue to define and shape this area of study. Through this collection of essays Sherrow Pinder responds to the need to open up a rich avenue for addressing current and continuing issues of race gender ethnicity sexuality cultural diversity and education in their varied forms. Substantial thematic overlaps are found between sections and essays all of which are oriented toward a single broad objective to develop new and different ways of addressing how multicultural issues in their discursive sociocultural contexts are inextricably linked to the operations of power. Power as a site of resistance to which it invariably gives rise is tackled from a perspective that attends to the complexities of America's history and politics. *Women's Rights Law Reporter*, 2004

Immovable Laws, Irresistible Rights Christine Pierce, 2000 Same sex partnerships Pregnancy through in vitro fertilization Ending one's own life in dignity All are deemed inherently wrong by the standards of natural law ethics but for many people they represent legitimate life choices that are morally right. Now a leading feminist critic of the natural law tradition explores the ongoing confrontation between natural law and moral rights to argue that rights constitute a more solid grounding for ethics in human affairs and for feminist thought. In this volume Christine Pierce's important essays including the celebrated *Natural Law Language and Women* expand reflect and refine this central controversy. Reaching back to Aristotle and Aquinas and drawing on modern papal encyclicals and Supreme Court cases Pierce demonstrates that the natural law tradition with its doctrine of a supposed hierarchy of natural purpose has served to mystify women's nature and thereby justify restricting women to a predetermined social stratum. Addressing issues that concern not only feminism but legal theory as well she

defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on Aristotelian notions of friendship and trust Through tightly constructed arguments presented in engaging prose Pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes on such issues as AIDS gay marriage animal liberation and feminist separatism She combats the prevailing view of Plato as sexist and explores Sartre s views of holes and slime She also examines the work of contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in Thomism With natural law concepts now in fashion with many conservatives and even some Supreme Court justices Pierce s essays offer a necessary perspective on where current legal and ethical thinking is headed *Immovable Laws Irresistible Rights* is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them *Journal of Law & Equality* ,2005 **2005 John and**

Mary A. Yaremko Programme on Multiculturalism and Human Rights Symposium ,2005 *Pornography, Sex, and Feminism* Alan Soble,2002-03 In this unabashed defense of pornography from a utilitarian hedonist perspective philosopher Alan Soble strongly rebuts both feminist and conservative critics Soble demonstrates that neither conservative nor feminist critics of pornography show much acquaintance with the genre they criticize This suggests that purely political motives underlie their critiques instead of reasoned objective arguments based on thorough empirical research Soble also faults critics of pornography for their failure of empathy they refuse to see pornographic images from the various perspectives of their viewers In approaching these images literally detractors promulgate the worst possible interpretation of pornography Further they do not do justice to the social and psychological research about pornography and its purported harms Conservatives and feminists manufacture their case against pornography and its consumers based on oversimplified interpretations of the images and a poor understanding of scientific studies This sardonic and well reasoned critique of feminist and conservative moral outrage over pornography is sure to be controversial **M-Z** Alan Soble,2006
