Lyft This Month:

The Voltage Effect John A List, 2022-02-03 By far the best book I've ever read on the how and why of scaling. If you care about changing the world or just want to make better decisions in your own life, The Voltage Effect is for you. Angela Duckworth, CEO of Character Lab and New York Times bestselling author of Grit _____ Why do some ideas make it big while others fail to take off? According to award-winning behavioural economist John List, the answer comes down to a single question: Can the idea scale? Countless enterprises fall apart the moment they scale: their positive results fizzle, they lose valuable time and money, and the great electric charge of potential that drove them early on disappears. In short, they suffer a voltage drop. Yet success and failure are not about luck; in fact, there is a rhyme and reason as to why some ideas fail and why some make it big. Certain ideas are predictably scalable while others are predictably destined for disaster. In The Voltage Effect, University of Chicago economist John A List explains how to identify the ideas that will be successful when scaled and how to avoid those that won't. Drawing on his own original research as well as fascinating examples from the realms of business, government, education, and public health, he details the five signature elements that cause voltage drops and unpacks the four proven techniques for increasing positive results or voltage gains and scaling great ideas to their fullest potential. By understanding the science of scaling, we can drive change in our schools, workplaces, communities, and society at large. Because a better world can only be built at scale. _____ One of the best economics books I have ever read and an instant classic in behavioral economics. Cass R. Sunstein, Robert Walmsley, University Professor, Harvard University and New York Times bestselling co-author of Nudge. Thought-provoking and engaging. A must-read. Daron Acemoglu, Institute Professor at MIT and co-author of Why Nations Fail and The Narrow Corridor. **Do Androids Dream of Electric Cars?**

James Wilt, 2020-04-22 Public transportation is in crisis. Through an assessment of the history of automobility in North America, the three revolutions in automotive transportation as well as the current work of committed people advocating for a different way forward, James Wilt imagines what public transit should look like in order to be green and equitable. Wilt considers environment and climate change, economic and racial inequality, urban density, accessibility, and safety work, and labour unions, privacy, and control of personal data as well as the importance of public and democratic decision-making. Based on interviews with more than forty experts including community activists, academics, transit planners, authors, and journalists, Do Androids Dream of Electric Cars explores our ability to exert power over how cities are built and for whom.

Transportation Network Companies and Taxis Craig A. Leisy, 2019-05-07 Transportation Network Companies and Taxis: The Case of Seattle is a modern economic case history and thorough analysis of the devastating impact of the transportation network company (TNC) industry (Uber and Lyft) on the taxicab industry in Seattle, Washington, beginning in 2014. The events that transpired and lessons learned are applicable to most large cities in North America, Europe, and Australia. As the regulator of the taxicab and TNC industries in Seattle during this period, the author offers a unique insider

perspective The book also provides internal operating statistics on the TNC industry which are available here for the first time Despite the spectacular growth of the TNC industry growth rates have steadily declined and may fall to zero by 2019 or 2020 while the taxicab industry appears to have begun a modest recovery This book offers a thorough explanation of how and why this decline has happened It explains the taxicab industry economic deregulation competitive market failure market disruption price elasticity of demand and other concepts There is also a wealth of data computations and analysis for the specialized reader This book considers the past present and future of the taxicab and TNC industries in Seattle It is recommended for both the general reader and industry professionals

Stakeholder Capitalism Klaus Schwab, 2021-01-07 Reimagining our global economy so it becomes more sustainable and prosperous for all Our global economic system is broken But we can replace the current picture of global upheaval unsustainability and uncertainty with one of an economy that works for all people and the planet First we must eliminate rising income inequality within societies where productivity and wage growth has slowed Second we must reduce the dampening effect of monopoly market power wielded by large corporations on innovation and productivity gains And finally the short sighted exploitation of natural resources that is corroding the environment and affecting the lives of many for the worse must end The debate over the causes of the broken economy laissez faire government poorly managed globalization the rise of technology in favor of the few or yet another reason is wide open Stakeholder Capitalism A Global Economy that Works for Progress People and Planet argues convincingly that if we don t start with recognizing the true shape of our problems our current system will continue to fail us To help us see our challenges more clearly Schwab the Founder and Executive Chairman of the World Economic Forum looks for the real causes of our system s shortcomings and for solutions in best practices from around the world in places as diverse as China Denmark Ethiopia Germany Indonesia New Zealand and Singapore And in doing so Schwab finds emerging examples of new ways of doing things that provide grounds for hope including Individual agency how countries and policies can make a difference against large external forces A clearly defined

social contract agreement on shared values and goals allows government business and individuals to produce the most optimal outcomes Planning for future generations short sighted presentism harms our shared future and that of those yet to be born Better measures of economic success move beyond a myopic focus on GDP to more complete human scaled measures of societal flourishing By accurately describing our real situation Stakeholder Capitalism is able to pinpoint achievable ways to deal with our problems Chapter by chapter Professor Schwab shows us that there are ways for everyone at all levels of society to reshape the broken pieces of the global economy and country by country company by company and citizen by citizen glue them back together in a way that benefits us all
