May the Best Team Win Andrew Zimbalist, 2010-12-01 The business of baseball stands in sharp contrast to the game's wholesome image as America's favorite pastime Major league baseball is a deeply troubled industry facing chronic problems that threaten its future persistent labor tensions competitive dominance by high revenue teams migration of game telecasts to cable and escalating ticket prices Amid the threat of contraction existing franchises are demanding public subsidies for new stadiums while viable host cities are begging for teams The game's core base of fans is aging and MLB is doing precious little to attract a younger audience According to Andrew Zimbalist these problems have a common cause monopoly Since 1922 MLB has benefited from a presumed exemption from the nation's antitrust laws It is the only top level professional baseball league in the country and each of its teams is assigned an exclusive territory Monopolies have market power which they use to derive higher returns misallocate resources and take advantage of consumers Major league baseball is no exception In May the Best Team Win Zimbalist provides a critical analysis of the baseball industry focusing on the abuses and inefficiencies that have plagued the game since the 1990s when franchise owners appointed their colleague Bud Selig as MLB's independent commissioner

We Are America, We Are Americans Matt Teahan, 2022-05-11 We Are America We Are Americans By Matt Teahan A Journey through life at least part of it and the lessons learned and in a rare instance taught In this quasi autobiography I answer the confounding questions of our day through a riveting for some people journey of all topics relevant Is the United States of America really a Christian Nation Where has this Country's corporate leadership gone Why would anyone waste an entire adolescence refining their basketball jump shot Why has the moral compass in Professional Sports disappeared into the abyss of political wokeness Why do we need to ban plastic straws and not water bottles particularly if Climate Change is going to kill us all in 9 years anyway How do we pay reparations for people of mixed race How can chicken sandwiches galvanize and legitimize the LGBT community What did I share with the Pope at the sacred site of Fatima What's it going to take to get millennials off Twitter out of Mom's basement and into Church Why is systemic ignorance a far greater threat to this country than anything else systemic I'll introduce a toxic blend of fact fiction criticism sarcasm reality inquiry and humor into the topics of the day And I'll blend my shallow yet relevant life experiences into the mix where it's almost impossible to tell the difference You may get bored You might not You may or may not like my viewpoints You might not even like me But you won't be the first nor the last I think however everyone will find something here they can relate to Whether it's basketball friends God politics a career or the social issues of the day there's something for everybody Even for those who rarely open a book like today's College students For them I've included pictures See Something for everybody And although some of my viewpoints you may frown upon you will appreciate the humor anecdotes multiple geography lessons ridicule sarcasm and blatant hypocrisy that I'll expose on any number of topics All shrouded in the novel concept called common sense And if you don't like to read about those types of things then don't buy the book Get
