Service Industry Growth Causes And Effects:

Service Industry Growth Herbert G. Grubel, Michael Walker, 1989 From the back cover Is the growth of the service sector a menace or a bounty Will our society degenerate into two solitudes the high skilled rich and the low skilled poor How can an export driven economy like Canada survive the growth of the service sector What should governments do to encourage or discourage service growth Service Industry Growth addresses these paradoxes and provides a summary of the most complete and far reaching research project ever conducted on the economics of the service sector

FORMAL AND INFORMAL SECTOR: CAUSES, CONSEQUENCES AND GOVERNMENT MEASURES IN SOCIO-ECONOMIC DEVELOPMENT Dr. Chinmoy Sarkar, Prof. Sandipan Bhattachariya, Dr. Ranjan Sarkar, 2024-02-15 Formal and Informal Sector in India Causes Consequences and Policy framework in socio economic development is an endeavor of the Research Wing of Siliguri College of Commerce Siliguri to get an insight about the emerging issues faced by the formal and informal sector in India As a developing economy India has grown in GDP terms since 2005 and is one of the fastest growing economies in the world as of now overtaking the GDP of Great Britain in 2022 Apart from her satisfactory growth in terms of formal planning the size and magnitude of India's informal sector is something which is a concern for both researchers and planners Large informal clusters in metro cities of Argentina Brazil and Mexico as well as in emerging metros like Surat Siliguri Bhopal and Vijaywada may thwart any comprehensive planning premises of a welfare state There are issues of livelihoods and educational attainments if the informal base is large and operate beyond the spectrum of Government initiatives The vulnerabilities of the migrant workers the livelihoods of small traders and the literacy attainments of the school going children enrolled in low cost public schools were severely impacted when India was closed down for almost 187 days in 2020 2022 during the COVID crisis The presence of informal workers in agricultural sector small scale industries MSMEs and informal employment is anything close to 235 million in India There has been sincere efforts by our Governments to uplift the rural poor and the marginalized urban clusters by means of self employment schemes and tax incentives but such efforts do not reach the informal economy Therefore the main focus lies in integrating these clusters with the formal economy This is undoubtedly a formidable task Further there is a need for a national floor to protect the wages of the clusters operating in the informal sector in terms of minimum wage health and safety measures as well as literacy attainments On the other side schooling literacy attainments and livelihoods were severely affected during the lockdown These are the issues which are raised in this publication
