Commonsense use of Medicines John Fry,J.R. Trounce,M. Godfrey,2012-12-06 We share with our colleagues the difficulties presented by the increasing volume of drugs available for our use in the care of patients The introduction of new and effective preparations has added to our problems both in keeping up to date and paradoxically in their proper selection and use There are yet further difficulties in general practice because of the nature of the diseases and situations encountered under tainties in the preciseness of diagnosis in the likely course and outcome of diseases and in the particular characteristics of the individual patient We have attempted to ease these difficulties by adopting a logical but Simplistic schematic approach to the choice of medicines for 14 selected common conditions Our approach includes statements of knowledge and understanding of the conditions analyses of the most suitable available drugs setting objectives and principles for management suggested treatment plans The suggestions are of course our own and may not be completely acceptable to some of our readers but in creating this schematic approach our intention has been that those who follow it will be able to select from alternative preparations with satisfactory results

Independent Prescribing for General Practice Nurses

Amanda Blaber,Hannah Morris,Jennifer Gorman,Donna Goddard,2021-10-06 General Practice Nurses play an essential role in delivering care through general practice taking on a spectrum of different responsibilities within patient care to support the ever increasing workload within GP surgeries clinics and health centres Often working autonomously as part of a multidisciplinary team general practice nurses assess advise and treat patients of all different ages and backgrounds and therefore may encounter almost every aspect of patient care during their work This book is specifically aimed at GP Nurses undertaking independent prescribing within the complexity of contemporary primary healthcare It offers a complete overview for those taking on an independent nurse prescribing course as well as those nurses who have already qualified as independent prescribers Case studies written for the general practice setting will help nurses build on the skills and practice they have already developed as they take on the independent prescribing role and will also be of value to more experienced or advanced nurses hoping to refresh their existing knowledge Written by a range of specialist authors the book also covers the theoretical knowledge and context associated with independent prescribing enabling GP nurses to practise competently and confidently and deliver clinically effective person centred care

Reviving Primary Care John Fry,Donald

Light,Jonathan Rodrick,Peter Orton,2018-05-08 The quality of health care in the US depends on the patient s ability to pay and his or her insurance cover at an annual cost of 3600 per head of population In the UK the quality of care costs less at an annual cost of 1000 per head of population although care is sometimes delayed through a lack of resources This book compares the two systems from the viewpoint of primary care identifying some models of excellence from which both can benefit It draws on the experience of the NHS reforms in the UK and the political imperative to control costs and improve the service in the US **Insights in Regulatory Science: 2021** Bruno Sepodes,Peter G.
