Present Danger:

The Supreme Court in Conference (1940-1985) Del Dickson, 2001-07-12 The Supreme Court in Conference offers a fascinating and unprecedented look at the private debates between Justices on nearly 300 landmark cases from 1940-1985. Major decisions such as *Roe v. Wade* and *Brown v. Board of Education* are covered, and the notes of Justices Felix Frankfurter, William O. Douglas, Frank Murphy, Robert Jackson, Harold Burton, Tom Clark, Earl Warren, and William Brennan are opened to shed light on what goes on behind the closed doors of the secretive conference room. In this unique and revealing work on some of the most profound rulings made at a turbulent time in American history, the reader is given insight into how and why certain decisions were reached. With expert editing by Del Dickson, who provides annotations and an introduction to each case placing them in legal and historical context, cases on issues such as free speech, the rights of the accused, religion, Presidential power, equal protection, affirmative action, and the death penalty are discussed. Dickson also includes a lively and incisive history of the Supreme Court from its beginning to the present, illuminating how the conference works, how it has evolved, its various animosities, triumphant successes, and glaring failures. As the first major reference work on this subject, this easy-to-use book offers the most reliable evidence available on the internal workings of the Supreme Court. It is the ideal source for scholars, law students, historians, and anyone interested in how Supreme Court decisions are truly made.

Crimes against the State James A. Beckman, Eric Merriam, 2024-08-08 This work provides an authoritative survey of America's long and turbulent history of rebellion, sedition, and treason against government authority and institutions. *Crimes against the State* is an even-handed and illuminating one-stop resource for understanding acts of rebellion and sedition against government authorities and institutions throughout US history, as well as the motivations driving those actions. Special care is taken to differentiate between hostile acts and actors that seek to overthrow or otherwise damage the state and/or targeted demographic groups through violence, and acts and actors that seek to defy, reform, or improve laws and institutions of the state through nonviolent action. Within these pages, readers will: 1. learn how to differentiate between sedition, insurrection, treason, domestic terrorism, espionage, and other acts meant to injure or overthrow the government; 2. gain a deeper understanding of laws, policies, and events that have aroused violent or nonviolent opposition; 3. gain insights into perspectives and motivations of individuals and organizations; and 4. learn about state responses to these challenges and threats, from martial law to criminal prosecutions to new laws and reforms. Encyclopedia of Criminal Justice Ethics Bruce A. Arrigo, 2014-07-17 Federal, state, county, and municipal police forces all have their own codes of conduct, yet the ethics of being a police officer remain perplexing and are often difficult to apply in dynamic situations.
