Caudill, Shannon N. Conley, Michael E. Gorman, Martin Weinert, 2019-05-14 This book analyzes future directions in the study of expertise and experience with the aim of engendering more critical discourse on the general discipline of science and technology studies In 2002 Collins and Evans published an article entitled The Third Wave of Science Studies suggesting that

the future of science and technology studies would be to engage in Studies in Expertise and Experience In their view scientific expertise in legal and policy settings should reflect a consensus of formally trained scientists and citizens with experience in the relevant field but not ordinary citizens The Third Wave has garnered attention in journals and in international workshops where scholars delivered papers explicating the theoretical foundations and practical applications of the Third Wave This book arose out of those workshops and is the next step in the popularization of the Third Wave The chapters address the novel concept of interactional experts the use of imitation games appropriating scientific expertise in law and policy settings and recent theoretical developments in the Third Wave

The New Guitarscape in Critical Theory, Cultural Practice and Musical Performance Kevin Dawe, 2010 In The New Guitarscape Kevin Dawe argues for a re assessment of guitar studies in the light of more recent musical social cultural and technological developments that have taken place around the instrument He presents a synthesis of previous work on the guitar but also expands the terms by which the guitar might be studied drawing from studies in science and technology design theory material culture cognition sensual culture gender and sexuality power and agency ethnography real and virtual and globalization Dawe presents the guitar as an instrument involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world

The Oxford History of Board Games David Parlett, 1999 For thousands of years people have been planning attacks captures chases and conquests in short they ve been playing board games Now in The Oxford History of Board Games David Parlett investigates the myriad board games that have developed through the ages and around the world Here are the origins and development of our favorite games from the Egyptian and Asian ancestors of Chess Checkers and Backgammon to the invention of such modern classics as Monopoly Clue and Scrabble Parlett groups the games in different families such as those based on races or chases wars or hunts capture or

blockade and then provides a fascinating history of each family Throughout the book Parlett pays close indeed loving attention to traditional games the charming folk entertainments that have grown up through the centuries and which exhibit endless local variations Likewise he devotes enthusiastic coverage to lesser known and experimental games Thus the book is no mere catalog of the familiar but takes the reader into a world a games they have never known before And not only does he describe the rules and strategies of the games but Parlett also draws on 20 year s experience as a professional games researcher critic and inventor to offer many perceptive insights into the thinking involved in creating these games And finally Parlett also illuminates the significance of game playing as a central part of human experience as vital to a culture as its music dance and literature Written with great affection and authority and beautifully illustrated with period art and helpful diagrams that show the finer points of the games this is a fascinating and accessible guide to a richly rewarding subject
