Krisenprävention Volker Matthies, 2013-07-01 Zentrales Anliegen des Buches ist die Erörterung der Frage wie Gewaltkonflikte Kriegen und Krisen vorgebeugt werden kann Hierzu werden das Grundkonzept von Präventionen die Frühwarnung die Akteure Instrumente und Handlungsfelder sowie die Erfolgsbedingungen von Krisenprävention thematisiert Im Sinne der alten Lebensweisheit Vorbeugen ist besser als Heilen sollte der bisher vorherrschende reaktiv kurative Umgang mit Gewaltkonflikten von einer Kultur der Prävention abgelöst werden

Die dunkle Seite der Demokratie Michael Mann, 2019-03-11 Mörderische ethnische Überlegungen sind so die zentrale These Michael Manns die dunkle Seite der Demokratie Sie sind eine mögliche Perversion der Demokratisierung weil dem demokratischen Nationalstaat ein organisistischer Nationalismus anhaftet der danach strebt demos und ethnos Staatsvolk und Abstammungsgemeinschaft deckungsgleich zu machen wenn nötig mit Gewalt Michael Mann untersucht in empirisch dichten Fallstudien die Mechanismen der ethnischen Überlegung und ihre Umsetzung Er behandelt den Siedlerkolonialismus in Nordamerika den Massenmord an den Armeniern die nationalsozialistische Vernichtungspolitik die kommunistischen Gewalt unter Stalin Mao und Pol Pot den ethnischen Bürgerkrieg in Jugoslawien und den Genozid in Ruanda Am Beispiel von Indien und Indonesien verdeutlicht er aber auch weshalb multiethnische Konflikte nicht notwendigerweise in systematische Gewalt münden müssen

Die historisch soziologische Analyse dieser Fälle zielt darauf ab systematische Erkenntnisse und theoretische Erklärungen für die Entstehung mörderischer ethnischer Übergriffe herauszuarbeiten nicht zuletzt um politische Maßnahmen zu deren Verhinderung zu erarbeiten

The Prevention and Intervention of Genocide Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions
