The News Event Francis Cody,2023-04-05 In the hypermediated world of Tamil Nadu Francis Cody studies how news events are made Not merely the act of representing events with words or images a news event is the reciprocal relationship between the events being reported in the news and the event of the news coverage itself In *The News Event* Francis Cody focuses on how imaginaries of popular sovereignty have been remade through the production and experience of such events Political sovereignty is thoroughly mediated by the production of news and subjects invested in the idea of democracy are remarkably reflexive about the role of publicly circulating images and texts in the very constitution of their subjectivity The law comes to stand as both a limit and positive condition in this process of event making where acts of legal and extralegal repression of publication can also become the stuff of news about news makers When the subjects of news inhabit multiple participant roles in the unfolding of public events when the very technologies of recording and circulating events themselves become news the act of representing a political event becomes difficult to disentangle from that of participating in it This Cody argues is the crisis of contemporary news making the news can no longer claim exteriority to the world on which it reports

Contested Waters Amit Ranjan,2020-09-02 This book examines India s transboundary river water disputes with its South Asian riparian neighbours Pakistan Bangladesh Nepal and Bhutan It explores the history of disputes and cooperation over the transboundary river water in this region as well as discusses current disputes and future concerns It analyses how and why existing transboundary river water sharing treaties between India and its South Asian riparian neighbours are confronted with challenges The book indicates that India s transboundary river water disputes with its South Asian riparian neighbours are likely to escalate in coming years due to the widening of the demand supply gap in the respective countries It further shows the impact of bilateral relations on the resolution of transboundary river water disputes even as cordial relationships do not always guarantee the absence of river water disputes between riparian states The book looks at some key questions How political are India s transboundary rivers water disputes in South Asia Why do the roots of India s river water disputes with Bangladesh and Pakistan lie in the partition of the British India in 1947 Why are there reservations against India s hydroelectricity projects or allegations of water theft Is it possible to resolve transboundary river water disputes among these South Asian countries This book will greatly interest scholars and researchers working in the areas of river management environmental politics transnationalism water resources politics and international relations security studies peace and conflict studies geopolitics development studies governance and public administration and South Asian studies in addition to policymakers and journalists
