Influential Machines Miles C. Coleman, 2023-11-02 A new framework for understanding how algorithms influence Web applications offer us conclusions about science Twitter bots generate art Machine learning systems satirize politicians We live in an era where a substantial share of our private and public communication is machinic Modern computing machines cannot yet speak for themselves although the capacities of AI are rapidly expanding but they generate rhetorical energies as they give advice entertain and proffer insight speaking to human concerns in more than human ways and guiding human action In Influential Machines Miles C Coleman looks beyond human communication to interrogate the

ways in which the machines and algorithms in our lives make meaning and the implications of their special modes of communication Using the varied examples of an anti vax vaccine calculator two Twitterbots and the computational performances of virtual assistants Coleman asks what machines mean to us as social agents and whether humans are the appropriate reference for designing machine communication Coleman goes beyond the front and back ends of computing to describe the deep end of computing a site of ambient rhetoric that is essential for understanding how machines move in today s digital world
