Albaum, Gerald Albaum, Edwin Duerr, 2008 This book comprehensively covers both international marketing and export management The focus is on marketing decisions and management processes involved in exporting **Take This Job and Ship It** Byron L. Dorgan, 2015-06-09 Our trade deficit increases by 2 billion a day Pharmaceutical companies and their lobbyists have such influence in Washington that Medicare by current law is not allowed to negotiate lower drug prices We import oil on an ever increasing scale putting ourselves into debt with the Saudis the Kuwaitis and other Middle Eastern nations With their windfall profits they continue to buy American assets China's booming economy and abundance of cheap labor are threatening our economic survival We have mortgaged our fortunes our principles and our way of life In this comprehensive look at the real human toll of America's unsound trade policy Senator Byron Dorgan exposes the myth of free trade Indeed free trade is not free it is something that is slowly but surely draining away American prosperity Sure Chinese labor can drive down prices at Wal Mart at the same time however those saved wages dollars that would have gone to buy these cheaper goods are gone Too soon it will all come crashing down Major U.S. corporations continue to ship jobs overseas by the millions

and because of their influence in Washington avoid paying a king's ransom in taxes. Many billions of dollars that these companies fleece from the government and the American people go overwhelmingly to investments in expanding production capabilities overseas. In short, our government is in the grip of corporate and foreign interests and the American worker has borne the brunt of this culture of corruption. How can we stem the tide of outsourcing? Why has the White House done nothing? Will the middle class survive? From describing corporate profiteering to calling to action a lethargic inactive government, Byron Dorgan exposes the truth about the destructive relationship between corporations and Congress and proposes strategies for what can really be done to preserve America's preeminence in the world.

Marketing Management Alain Jolibert, Hans Mühlbacher, Laurent Flores, Pierre-Louis Dubois, 2017-09-16. Marketing Management challenges the traditional view of marketing as a function, considering it instead as a series of processes pervading the entire organization and involving most personnel as part-time marketers. The authors argue that every company or institution must manage four main processes: strategic positioning, market intelligence, value creation, and value generation. Adopting a global approach, the book focuses on value creation and introduces students to the tools of the marketing mix in a process-oriented manner. New to this edition: New coverage of technology applications and developments and B2B marketing. Consistent focus on value creation throughout. More examples to illustrate theory. Enhanced pedagogy including long case studies and exercises in every chapter. With its unique approach and international coverage, this book is essential reading for advanced undergraduate and postgraduate students of Marketing Management and will also appeal to MBA and other post-experience students.

Getting the Goods Edna Bonacich, Jake B. Wilson, 2008. Bonacich and Wilson follow the flow of imports from Asian factories, exploring the roles of importers, container shipping companies, the ports, railroad, and trucking companies, and warehouses, and their impact on U.S. workers.

Wine By Design Victor W. Geraci, 2020-03-18. From its eighteenth-century beginnings, the Santa Barbara wine industry achieved success by embracing a wine-by-design model. In this process, farmers, winemakers, and entrepreneurs overcome roadblocks like diseases, government policies, and regulations and environmental concerns by utilizing the latest technological advances coupled with agribusiness capitalism. As the American demand for premium wine grapes intensified in the late twentieth century, the Northern California wine industry rapidly grew its boutique and innovative local designer winemaking to increase profit, to meet demand, and to compete on a global scale. Set in the context of the regional, national, and global wine community, this story illuminates a regional story of how the Santa Barbara wine industry found solutions to current market conditions while utilizing local traditions to develop a new version of local wine terroir. An accomplishment that allowed them to compete in the global marketplace yet develop highly specialized wine that is unique to the region. By employing leading-edge technology and entrepreneurship, the California Central Coast region of Santa Barbara became a model for the American vision of agricultural innovation and an integral part of the international wine trade, developing a personalized version of local wine terroir.
