Effective Business Intelligence Systems Robert J. Thierauf, 2001-06-30 One step above knowledge management systems are business intelligence systems Their purpose is to give decision makers a better understanding of their organization s operations and thus another way to outmaneuver the competition by helping to find and extract the meaningful relationships trends and correlations that underlie the organization s operations and ultimately contribute to its success Thierauf also shows that by tying critical success factors and key performance indicators into business intelligence systems an organization s most important financial ratios can also be improved Comprehensive and readable Thierauf s book will advance the knowledge and skills of all information systems providers and users It will also be useful as a text in upper level courses covering a wide range of topics essential to an understanding of executive business systems generally and specifically their creation and management The theme underlying Thierauf s unique text is that a thorough understanding of a company s operations is crucial if the company is to be moved to a higher level of competitive advantage Although data warehousing data mining the Internet the World Wide Web and other electronic aids have been in place for at least a decade it is the remarkable and unique capability of business intelligence systems to utilize them that has in turn revolutionized the ability of decision makers to find accumulate organize and access a wider range of information than was ever before possible Effective business intelligence systems give decision makers a means to keep their fingers on the pulse of their businesses every step of the way From this it follows that they are thus able to develop new more workable means to cope with the competition successfully Comprehensive and readable Thierauf s book will advance the knowledge and skills of all

information systems providers and users It will also be useful as a text in upper level courses covering a wide range of topics essential to an understanding of executive business systems generally and specifically their creation and management
