Prescriptions And Policies:

Politicising Commodification Roland Erne, Sabina Stan, Darragh Golden, Imre Szabó, Vincenzo Maccarrone, 2024-06-06 This book examines the new economic governance NEG regime that the EU adopted after 2008 Its novel research design captures the supranational formulation of NEG prescriptions and their uneven deployment across countries Germany Italy Ireland Romania policy areas employment relations public services and sectors transport water healthcare NEG led to a much more vertical mode of EU integration and its commodification agenda unleashed a plethora of union and social movement protests including transnationally The book presents findings that are crucial for the prospects of European democracy as labour politics is essential in framing the struggles about the direction of NEG along a commodification decommodification axis rather than a national EU axis To shed light on corresponding processes at EU level it upscales insights on the historical role that labour movements have played in the development of democracy and welfare states This title is also available as Open Access on Cambridge Core

Inside the Mind of Toyota Satoshi Hino, 2024-11-01 Winner of a Shingo Research and Professional Publication Award Toyota s sustained growth attracts the attention of economists and industrialists around the world eager to learn the secrets of Toyota s lasting success In *Inside the Mind of Toyota* Management Principles for Enduring Growth Satoshi Hino examines the source of Toyota s strength the fundamental thinking and management structures that lie beneath the creation of its famed Toyota Production System From the perspective of a professional with 30 years experience in the auto industry Hino presents a fresh and detailed analysis of Toyota s essential management system from its very beginnings into the 21st century The ultimate goal is not simply to mimic Toyota s formula but to learn from it and in doing so surpass it From the Translator s Foreword Unlike most Toyota

watchers Hino urges us to set our sights not on replicating Toyota's success but on surpassing it. This point is crucial because it moves our attention away from slavish imitation of what is visible on the surface and challenges us to tap into deeper and more powerful mechanisms of excellence. This is not a cookbook and it is not Toyota Lite. It deserves serious study, application and experimentation. Learn how Toyota thinks. Hino is telling us. Learn Toyota's strengths, make them your own, and then exceed them. Andrew Dillon, September. The Urban League Review. National Urban League, Research Department, 1990.
