Presence Of Light Divine Radiance And Religious Experience:

The Presence of Light Matthew T. Kapstein, 2004-11-03 There is perhaps no greater constant in religious intuition and experience than the presence of light In spiritual traditions East and West light is not only ubiquitous but something that assumes strikingly similar forms in altogether different historical and cultural settings This study examines light as an aspect of religiously valued experiences and its entailments for mystical theology philosophy politics and religious art The essays in this volume make an important contribution to religious studies by proposing that it is misleading to conceive of religious experience in terms of an irreconcilable dichotomy between universality and cultural construction An esteemed group of contributors representing the study of Asian and Western religious traditions from a range of disciplinary perspectives suggests that attention to various forms of divine radiance shows that there is indeed a range of principles that if not universal are nevertheless very widely occurring and amenable to fruitful comparative inquiry What results is a work of enormous scope demonstrating compelling cross connections that will be of value to scholars of comparative religions mysticism and the relationship between art and the sacred Contributors Catherine B Asher Raoul Birnbaum Sarah Iles Johnston Matthew T Kapstein Andrew Louth Paul E Muller Ortega Elliot R Wolfson Mimi Hall Yiengpruksawan Hossein Ziai

Mystical Luminosity Experience Jonathan Dinsmore, 2024-07-01 Light of a divine or transcendent nature is widely revered in various religious and mystical traditions around the world and luminosity with mystical qualities such as love bliss peace and noetic realization is also frequently reported by contemporary experiencers Despite being described as a profoundly significant sacred and transformative experience mystical luminosity has received relatively little attention in modern scholarship and scientific study and has only been examined empirically within isolated contexts such as NDEs or contemplative practices This study examines the phenomenology which binds mystical luminosity across various experiential contexts to construct a phenomenologically grounded theoretical model A three part mixed methods investigation using a new mystical luminosity experience scale based on this model is then summarized with findings generally supporting and The varieties of contemplative experiences and practices Sucharit Katyal, Sisir Roy, Philippe further clarifying the model R. Goldin, Anna-Lena Lumma, 2023-07-05 Naked Seeing Christopher Hatchell, 2014-09-03 Buddhism is in many ways a visual tradition with its well known practices of visualization its visual arts its epistemological writings that discuss the act of seeing and its literature filled with images and metaphors of light Some Buddhist traditions are also visionary advocating practices by which meditators seek visions that arise before their eyes Naked Seeing investigates such practices in the context of two major esoteric traditions the Wheel of Time Kalacakra and the Great Perfection Dzogchen Both of these experimented with sensory deprivation and developed yogas involving long periods of dwelling in dark rooms or gazing at the open sky These produced unusual experiences of seeing which were used to pursue some of the classic Buddhist questions about appearances emptiness and the nature of reality Along the way these practices gave rise to provocative ideas and

suggested that rather than being apprehended through internal insight religious truths might also be seen in the exterior world realized through the gateway of the eyes Christopher Hatchell presents the intellectual and literary histories of these practices and also explores the meditative techniques and physiology that underlie their distinctive visionary experiences The book also offers for the first time complete English translations of three major Tibetan texts on visionary practice a Kalacakra treatise by Yumo Mikyo Dorj The Lamp Illuminating Emptiness a Nyingma Great Perfection work called The Tantra of the Blazing Lamps and a B n Great Perfection work called Advice on the Six Lamps along with a detailed commentary on this by Drugom Gyalwa Yungdrung

The ^AArt of Mystical Narrative Eitan P. Fishbane,2018-11-22 In the study of Judaism the Zohar has captivated the minds of interpreters for over seven centuries and continues to entrance readers in the modern day Yet despite these centuries of study very little attention has been devoted to the literary dimensions of the text The Art of Mystical Narrative argues that the Zohar story must be understood first and foremost as a work of the fictional imagination
