Presence Of Whales Contemporary Writings On The Whale:

The Presence of Whales Frank Stewart, 1995 An observer storyteller and lover of whales gathers the most compelling contemporary essays on cetaceans by both marine scientists and nature writers including Diane Ackerman Barry Lopez Farley Mowat Faith McNulty and Jonathan White in a stunning new anthology that celebrates our ongoing fascination with these fragile giants

The International Politics of Whaling Peter J. Stoett, 2011-11-01 Whales large mysterious intelligent and endangered In 1986 a global moratorium on whaling was issued by the International Whaling Commission However that decision was not without controversy Some countries such as Norway continue to whale in defiance of the ban In this fascinating book Peter Stoett combines ecological sensitivity with a hard assessment of the political realities of the international regime to examine this important issue The International Politics of Whaling examines contemporary whaling issues with an emphasis on three factors our knowledge of whales and current whale populations and the impact of whaling the actors and institutions involved in the debate over whaling and the ethical dimension Reluctantly he concludes that the current global moratorium on whaling is problematic and that we must focus instead on habitat preservation in order to protect whales more effectively

The Whale Watcher's Guide Patricia Corrigan, 1999 An updated edition of the book that helps plan a whale watching trip With new information regarding whale tours in North America this valuable guide explains everything from where to see these magnificent animals and what a tour will cost to what to watch for and what to wear Includes updated information on pricing dates tour operators and contact information 35 illustrations

The Economy of a Norse Settlement in the Outer Hebrides Niall Sharples, 2020-11-23 This book explores the economic evidence for the settlement at Bornais on South Uist It reports in detail on the large assemblages of material found during the excavations at mounds 2 and 2A There is important evidence for craft activity such as bone and antler working and this includes the only comb making workshop from a rural settlement in Britain A large proportion of the copper alloy bone and antler assemblages comprise pieces of personal adornment and provide important information on the dress and thereby social relations within the settlement occupation There is a large assemblage of iron tools and fittings which provides important information on the activities taking place at the settlement The information derived from the artefact assemblages is complemented by that provided by the ecofactual material Large amounts of animal fish and bird bones plus carbonised plant remains provide detailed information on agricultural practices and the processing preparation and consumption of foodstuffs It is clear that the Norse inhabitants of the settlement had access to a much richer variety of resources than had been exploited before the Viking colonisation of the region The settlement also had a significantly wider range of connections material culture indicates contacts to the south with the Irish Sea ports and Bristol and to the north with Shetland and the Viking homelands of Norway The evidence produced by these excavations is exceptional and provides an unparalleled opportunity to explore medieval life in the Scandinavian kingdoms of Western Britain
