Press Party And Presidency:

The Influence of Polls on Television News Coverage of Presidential Campaigns Vincent M. Fitzgerald, 2018-06-12 Since the election of Richard Nixon in 1968 to Donald Trump's victory in 2016 both presidential campaigns and television news have undergone significant changes perhaps most noticeably in the use of public opinion polls in campaign reporting by the national evening newscasts of ABC CBS and NBC *The Influence of Polls on Television News Coverage of Presidential Campaigns* explores how during the past 50 years the three networks have quadrupled their use of polls during general election campaigns while the amount of time spent covering the actual issues facing the nation has dwindled The increasing focus on polls over the years by television news has resulted in an overall diminished quality of journalism which is relying more and more on sensationalism and theatrics The competition between the candidates has become a central focus of reporting which has led to presidential campaigns being covered like sporting events Major party candidates are portrayed increasingly less like potential leaders of the free world and more like athletes who are winning or losing a ballgame The problem is not exit polls prematurely projecting a winner several hours before voting ends but pre election polls which do the same thing weeks before Election Day Recommended for scholars interested in communication political science history and sociology

The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse Volume Four David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2026-02-10 In this volume we focus on the years following Putin's return to the presidency in 2012 This has been a more active period than his first two terms including the annexation of Crimea and ultimately the invasion of Ukraine Thus this period may be characterized as the run up to that war The core issue discussed in this volume is Putin's redefinition of democracy as the foundation of society and government in the Russian Federation Putin argues for a strong central government in which unity is characterized as the absence of dissent In so doing Putin seeks to recast Russian national identity relying on a vision of Russia as the victim of Western aggression

Mr. and Mrs. President Gil Troy, 2000 With a new chapter devoted to Hillary and Bill Clinton's tainted partnership in office and to the present First Lady's senatorial ambitions this second edition offers fresh insights into America's paradoxical expectations for its presidential wives and husband Deeply engrossing Publishers Weekly 33 photos

The Party Decides Marty Cohen, 2008-10 This volume demonstrates how party insiders from America's founding to the present day have sought to control presidential nominations as a means of getting what they want from government Contrary to the common view that the reforms of the 1970s wrested power away from parties the authors contend that the most consequential contests remain candidates' fights for prominent endorsements and the support of various interest groups activists and party leaders These invisible primaries the authors show produce front runners and profoundly influence final election outcomes long before most voters even begin to pay attention from back cover
