## **Realist Evaluation An Emerging Theory In Support Of Practice:**

Realist Evaluation: An Emerging Theory in Support of Practice Gary T. Henry, George Julnes, Melvin M. Mark, 1998-06-29  
Why is another theory of evaluation needed The paradigm wars have left a void in their wake A new theory firmly grounded in a credible philosophy of science is needed to guide practice The aim of this volume is to provide a new theory that captures the sensemaking contributions from post positivism and the sensitivity to values from constructivist traditions The theory presented here is not a slap dash synthesis of the competing paradigms it is a new approach Some of the contributions of the realist theory of evaluation are 1 providing a basis for principled discovery as we oscillate between explanations and data 2 using explanation as a means for extrapolating findings from one evaluation to other settings 3 viewing all methods both quantitative and qualitative as aids to sensemaking that have strengths and flaws 4 connecting evaluation practice with the ultimate goal of most program evaluation social betterment and 5 balancing the focus of the evaluation between sensemaking and value inquiry This is the 78th issue of the quarterly journal New Directions for Evaluation

Evaluationsforschung Reinhard Stockmann, 2013-03-09 Evaluation in Deutschland bietet ein sehr vielfältiges und buntes Bild In vielen Politikfeldern wird aus den verschiedensten Motiven und Gründen und mit den unterschiedlichsten Ansätzen und Methoden evaluiert Dennoch wird der Erfolg und die Wirksamkeit der weit überwiegenden Mehrzahl von politischen und sozialen Interventionsprogrammen überhaupt nicht eruiert Wie derholt hat der Bundesrechnungshof festgestellt da in Deutschland nur selten Erfolgskontrollen durchgeführt werden da in fast allen Ressorts dafür die Voraussetzungen fehlen und da in den wenigen durchgeführten Evaluationen oft die vorhandenen methodischen Möglichkeiten zur Ermittlung von Erfolg und Wirksamkeit nicht ausgeschöpft werden So bunt wie das Bild der Evaluation ist auch die Gilde derer die Evaluationen durchführen Im Unterschied zur USA konnte sich in Deutschland bis her keine sozialwissenschaftliche Evaluationsdisziplin durchsetzen Die Evaluationsforschung in Deutschland ist fachlich zersplittert weist nur eine geringe interdisziplinäre Kommunikation und Zusammenarbeit auf und ist noch immer mit dem Makel anwendungsbezogener Auftragsforschung behaftet deren Wissenschaftlichkeit teilweise bestritten wird Allerdings lassen sich erste Professionalisierungserfolge erkennen Im September 1997 wurde die Deutsche Gesellschaft für Evaluation gegründet die es sich zur Aufgabe gemacht hat das Verständnis die Akzeptanz und die Nutzbarmachung von Evaluation in der Gesellschaft zu fördern Prinzipien und Qualitätsstandards für Evaluationen zu entwickeln und den interdisziplinären Austausch zu unterstützen Auch ist eine vermehrte Zahl von Fachpublikationen und ein verstärktes Interesse an Aus- und Weiterbildungsangeboten zu beobachten **Credible and Actionable**

Thomas,Floraline I. Stevens,2004-05-05 This volume presents the Talent Development evaluation framework an approach for evaluating urban school reform interventions deeply embedded in the work of the Howard University Center for Research on the Education of Students Placed At Risk CRESPAR and the Talent Development Model of School Reform The CRESPAR Talent Development TD evaluation approach is rooted in several traditions of evaluation that intentionally seek engagement with contexts of practice These traditions include responsive participatory empowerment and culturally competent approaches to evaluation The CRESPAR TD evaluation approach also takes up themes of inclusiveness and partnership advanced by the recent promotion of multiple methods in evaluation With these themes the TD evaluation approach is viably grounded in well accepted evaluation concepts and principles The

approach further seeks to be practical useful formative and empowering for the many individuals served by TD evaluations and to give voice to persons whose perspectives are often ignored minimized or rejected in urban school settings Beyond such grounding and ambitions the CRESPAR TD evaluation framework seeks to re position evaluation in low income urban contexts as accountable not only for producing accurate and relevant information on the program being evaluated but also for enabling and contributing to the program s social betterment and social justice intentions This re positioning is effected primarily by a collaborative co constructionist model for evaluation in which CRESPAR program developers implementers and evaluators along with key program stakeholders partner together in envisioning implementing and evaluating programs that are responsive to and make cultural sense in the context at hand CRESPAR TD evaluators are contextually and culturally engaged and are responsible for this engagement This volume highlights the approach s five major themes engaging stakeholders co construction responsiveness cultural and contextual relevance and triangulation of perspectives **Critical**

Peersman, Michel Carael, 2004-11-18 The focus of this issue is on global advances in conducting monitoring and evaluation M E of the global response to the HIV AIDS epidemic Only by implementing comprehensive and sustainable M E systems will we know how much progress we are making as nations and as a global community in combating this pandemic The chapters primarily focus on developing nations and are presented largely from the perspective of evaluators working for donors international agencies and national governments Although it is clear that a comprehensive M E system must eventually include both monitoring and evaluation the initial aim has been to establish a foundation derived largely from surveys and monitoring information To date much of the focus in M E has come from the global level because new global funding initiatives been launched and required rapid scale up and the development of technical guidance international standards and indicators for monitoring progress and determining success At the regional and country levels the challenge has been to implement national M E plans and systems within a context of overall low M E capacity and a range of M E needs
