## Reality Embraced:

*In Our Own Image* Wesley J. Wildman, 2017-12-15 *In Our Own Image* is a work of comparative philosophical theology. It is a study of the roles anthropomorphism and apophaticism play in the construction of conceptual models of ultimate reality. Leading scholar Wesley J. Wildman considers whether we create our ideas of God. He offers a comparative analysis of three major classes of ultimacy models, paying particular attention to the way those classes are impacted by anthropomorphism while tracing their relative strengths and weaknesses. Wildman provides a constructive theological argument on behalf of an apophatic understanding of ultimate reality, showing how this understanding subsumes challenges and relates ultimacy models from the three classes being compared. He describes and compares competing ultimacy models fairly and sympathetically. The conclusion is that all models cognitively break on the shoals of ultimate reality, but that the ground of being class of models carries us further than the others in regard to the comparative criteria that matter most. Embracing Ultimate Reality Brandon L. Campbell, 2005 *Embracing Ultimate Reality* pays homage to our spiritual essence. It glorifies the higher power that we are all part of. Enjoy my story while keeping in mind that it could just as easily be yours. *The Comeback Quotient* Matt Fitzgerald, 2025-11-04 A good comeback makes a great story. In *The Comeback Quotient*, sports journalist Matt Fitzgerald shares the stories of top athletic comebacks to give you inspiration and tools for your own comeback in sport or life. Every sports fan loves a great comeback. Is there a special quality shared by top athletes who triumph over great challenges? And can anyone acquire it? In *The Comeback Quotient*, celebrated sportswriter Matt Fitzgerald supplies the answer to both questions. He identifies these mega-achievers of astounding athletic comebacks as ultrarealists: men and women who succeed where others fail by fully accepting, embracing, and addressing the reality of their situations. From ultrarunners like Rob Krar to triathletes like Mirinda Carfrae to rowers, skiers, cyclists, and runners all over the world, Fitzgerald highlights and speculates on just what makes these comebacks so compelling. As for whether anyone can stage his or her own great comeback, the answer is a resounding yes. Anyone can become an ultrarealist to some degree. In the tradition of his best-selling *How Bad Do You Want It?*, *The Comeback Quotient* combines gripping sports stories with mind-blowing science to deliver a book that will forever change how you perceive the challenges you face, giving you the inspiration and the tools to make the next great comeback you witness your own. **The British Study Edition of the Urantia Papers Book [A4 PDF]**, **The Urantia Book** Urantia Foundation Staff, 2011-05 You have just discovered the literary masterpiece that answers your questions about God, life in the inhabited universe, the history and future of this world, and the life of Jesus. be one that combined relevant aspects of each position yet transcended both to arrive at a more fundamental metaphysical theory Kant's synthesis sought to disclose how human reason goes about constructing its experience of the world thus intertwining objective stimuli with rational processes that arrive at an orderly view of nature     Embracing flaws key to Acceptance.
