Realms Of Gold The Classics In Christian Perspective:

Realms of Gold Leland Ryken, 2003-09-12 Throughout history great literature has been a cohesive force in Western culture. It interprets our experiences and tells us the truth about our fears and longings. It is a catalyst to our thinking and an invaluable index to the minds and feelings of people around us. In Realms of Gold, Leland Ryken proceeds chronologically through some of the best of the best from Homer through Shakespeare to Camus, offering not only a taste of the classics but a framework in which to analyze them. For students studying literature, this book serves as an introduction to the classics as friends; for those who have not read the classics in a long time, it is motivation to renew delightful acquaintances; for people who already know the classics as intimate friends, it offers the opportunity to renew acquaintance within a Christian context.

Jenny Sockey, 2002-06-01 How to Teach American Literature Elizabeth McCallum Marlow, 2017-09-01 How does one keep classic books alive for young people today and teach them that literature is instructional and delightful? How does the teacher foster a classroom environment that encourages student participation and promotes enjoyment so that teenagers learn to appreciate literary study? More specifically, how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric? The author of this series of high school teaching guides addresses these issues. How to Teach American Literature: A Practical Teaching Guide provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. This second book in the series covers American literature from the Puritan era to contemporary works. Included are suggestions for cultivating a love for literature, teaching techniques, detailed analyses of each work, questions for review and test questions with suggested responses, essay topics, audiovisual aids, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: it is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Elizabeth McCallum Marlow has developed quality comprehensive guides for the teaching community based on her thirty-five years of experience and her passion for literature. Teaching professionals will find her tried and true practices to be invaluable. Johnathan Arnold, MBA, M.Ed., D.Ed., Min. Headmaster, Covenant Christian Academy, Cumming, GA. How Now Shall We Live? Charles Colson, Nancy Pearcey, 2011-07-14 2000 Gold Medallion Award winner Christianity is more than a personal relationship with Jesus Christ. It is also a worldview that not only answers life's basic questions: Where did we come from and who are we? What has gone wrong with the world? What can we do to fix it? but also shows us how we should live as a result of those answers. How Now Shall We Live? gives Christians the understanding, the confidence, and the tools to confront the world's bankrupt worldviews and to restore and redeem every aspect of contemporary culture: family, education, ethics, work, law, politics, science, art, music. This book will change every Christian who reads it. It will change the church in the new millennium. **How to Teach**
