Cookbook Politics Kennan Ferguson, 2020-05-29 An original and eclectic view of cookbooks as political acts Cookbooks are not political in conventional ways They neither proclaim as do manifestos nor do they forbid as do laws They do not command agreement as do arguments and their stipulations often lack specificity cook until browned Yet as repositories of human taste cookbooks transmit specific blends of flavor texture and nutrition across space and time Cookbooks both form and reflect who we are In Cookbook Politics Kennan Ferguson explores the sensual and political implications of these repositories demonstrating how they create nations establish ideologies shape international relations and structure communities Cookbook Politics argues that cookbooks highlight aspects of our lives we rarely recognize as political taste production domesticity collectivity and imagination and considers the ways in which cookbooks have or do politics from the most overt to the most subtle Cookbooks turn regional diversity into national unity as Pellegrino Artusi's Science in the Kitchen and the Art of Eating Well did for Italy in 1891 Politically affiliated organizations compile and sell cookbooks for example the early United Nations published The World's Favorite Recipes From the First Baptist Church of Midland Tennessee's community cookbook to Julia Child's Mastering the Art of French Cooking to the Italian Futurists proto fascist guide to food preparation Ferguson demonstrates how cookbooks mark desires and reveal social commitments your table becomes a representation of who you are Authoritative yet flexible collective yet individualized cooperative yet personal cookbooks invite participation editing and transformation Created to convey flavor and taste across generations communities and nations they enact the continuities and changes of social lives Their functioning in the name of creativity and preparation with readers happily consuming them in similar ways makes cookbooks an exemplary model for democratic politics
