Salvation At Stake Christian Martyrdom In Early Modern Europe:

Salvation at Stake Brad S. Gregory, 2001-11-15 Thousands were executed for incompatible religious views in 16th century Europe The meaning and significance of those deaths are studied here comparatively providing an argument for the importance of martyrdom as a window onto religious sensibilities and a crucial component in the formation of divergent Christian traditions and identities Martyrdom and Literature in Early Modern England Susannah Brietz

Monta, 2005-03-10 A comprehensive comparison of the representations of early modern Protestant and Catholic martyrs

Foxe's 'Book of Martyrs' and Early Modern Print Culture John N. King, 2006-10-12 This book was first published in 2006 Second only to the Bible and Book of Common Prayer John Foxe's Acts and Monuments known as the Book of Martyrs was the most influential book published in England during the sixteenth and seventeenth centuries The most complex and best illustrated English book of its time it recounted in detail the experiences of hundreds of people who were burned alive for their religious beliefs John N King offers the most comprehensive investigation yet of the compilation printing publication illustration and reception of the Book of Martyrs He charts its reception across different editions by learned and unlearned sympathetic and antagonistic readers The many illustrations included here introduce readers to the visual features of early printed books and general printing practices both in England and continental Europe and enhance this important contribution to early modern literary studies cultural and religious history and the history of the Book Catholics Writing the Nation in Early Modern Britain and Ireland Christopher Highley, 2008-07-10 Modern scholars fixated on the winners in England's sixteenth and seventeenth century religious struggles have too readily assumed the inevitability of Protestantism's historical triumph and have uncritically accepted the reformers' own rhetorical construction of themselves as embodiments of an authentic Englishness Christopher Highley interrogates this narrative by examining how Catholics from the reign of Mary Tudor to the early seventeenth century contested and shaped discourses of national identity patriotism and Englishness Accused by their opponents of espousing an alien religion one orchestrated from Rome and sustained by Spain English Catholics fought back by developing their own self-representations that emphasized how the Catholic faith was an ancient and integral part of true Englishness After the accession of the Protestant Elizabeth the Catholic imagining of England was mainly the project of the exiles who had left their homeland in search of religious toleration and foreign assistance English Catholics constructed narratives of their own religious heritage and identity however not only in response to Protestant polemic but also as part of intra-Catholic rivalries that pitted Marian clergy against seminary priests secular priests against Jesuits and exiled English Catholics against their co-religionists from other parts of Britain and Ireland Drawing on the reassessments of English Catholicism by John Bossy Christopher Haigh Alexandra Walsham Michael Questier and others Catholics Writing the Nation foregrounds the faultlines within and between the various Catholic communities of the Atlantic archipelago Eschewing any confessional bias Highley's book is an interdisciplinary cultural study of an important but

neglected dimension of Early Modern English Catholicism In charting the complex Catholic engagement with questions of cultural and national identity he discusses a range of genres texts and documents both in print and manuscript including ecclesiastical histories polemical treatises antiquarian tracts and correspondence His argument weaves together a rich historical narrative of people events and texts while also offering contextualized close readings of specific works by figures such as Edmund Campion Robert Persons Thomas Stapleton and Richard Verstegan *More Than a Memory* Johan Leemans,2005 Throughout its history persecutions and martyrdom have been Christianity s faithful companions Remarkably enough Christians have always valued martyrdom in a positive way This positive evaluation of martyrdom most certainly has to do with the absolute uncompromising nature of it The martyrs lives and deaths represent the most uncompromising of answers to the divine call The focus of the contributions in this volume is not in the first place on reconstructing the historical events of the martyr s life and death wie es eigentlich gewesen ist but on the discourse generated by this event as mediated in texts *More than a Memory* aims to explore the reciprocal relationship between this discourse of martyrdom and the construction of Christian identity It will do so by presenting a number of test cases in which this dynamic can be seen at work They will lead the reader through the entire history of Christianity starting with the Martyrdom of Lyons and Vienne in the second century and ending in the Latin America of the 1960 s Each article will present a test case of discourse analysis attempting to explore the issue of how a document or coherent group of documents contributed to create a distinct Christian identity Taken together the essays provide an array of examples of how martyrdom impinged on the way Christian identity has been negotiated in the Christian past In doing this the volume at the same time illustrates the sheer importance of martyrdom and the reflection and writing about it throughout the history of Christianity until today *Harmony of the Spirits* Patrick Michael Erben,2012 *Harmony of the Spirits Translation and the Language of Community in Early Pennsylvania* **Protestantism After 500 Years** Thomas Albert Howard,Mark A. Noll,2016 As we approach the landmark date of October 31 2017 the quincentennial of the Protestant Reformation countries social movements churches universities seminaries and other institutions shaped by Protestantism are faced with the question of how to commemorate this momentous occasion In this volume experienced scholars come together to answer this question and examine the historical significance of the Reformation *Piety and Family in Early Modern Europe* Marc R. Forster,Benjamin J. Kaplan,2005 At first sight the subjects of piety and family life may appear to have little in common Yet as the essays in this volume make clear there are in fact a number of shared features and points of contact that make the study of these issues a particularly fertile area for scholars of the Reformation period Whether it be the concept of an individual s relationship with God so often articulated in familial terms the place of domestic devotions or the difficulties that faced families split by rival confessional beliefs and mixed marriages this book demonstrates how piety and family life were interwoven in the social and theological landscape of early modern Europe Inspired by the works of Steven Ozment the volume is divided into two sections each of

which deals with a particular concern of his writings The first four chapters address issues of Reformation theology and the medieval heritage whilst the remaining seven examine the spiritual life of families Together they underline how modern scholarship by broadening its conceptual outlook and bringing together seemingly unrelated subjects can provide a more sophisticated understanding of the past *Zeitschrift für Kirchengeschichte* ,2009 **Dissemination and contemporary impact of the Reformation in a European context** Irene Dingel,Ute Lotz-Heumann,2015 *Zeitschrift für historische Forschung* ,2007 **Zoologie der Tragödie** Andreas Höfele,2003 **Faith, Politics and the Arts** Christina Strunck,2019 This volume brings together essays based on a conference that took place in 2016 at the Herzog August Bibliothek in Wolfenb ttel The purpose of the event was to explore the role of the arts within confessional transfer and negotiation processes While many aspects of cultural transfer in the field of secular representation within Europe are already well studied the exchange of architectural forms and images between different confessions as well as the political contexts and motivations for these exchanges remains little understood For this reason the following questions are central to this volume Which aspects of art and architecture were transferred from one confession to another and how were they modified What theological or political intentions motivated processes of reception and adaptation How did the arts help to interpret the relationship between politics and religion and how did they as part of a linguistic and visual discourse model the relationship between spiritual and temporal powers And to what extent was religious tolerance thereby encouraged or undermined *Niedersächsisches Jahrbuch für Landesgeschichte* ,2001 **Catholic Culture in Early Modern England** Ronald Corthell,2007 Marotti analyzes some of the rhetorical and imaginative means by which the Catholic minority and the Protestant majority defined themselves and their religious and political antagonists in early modern England *Calvin Und Calvinismus* Irene Dingel,H.
