Faint Echoes, Distant Stars Ben Bova, 2009-10-13 Our neighboring planets may have the answer to this question Scientists have already identified ice caps on Mars and what appear to be enormous oceans underneath the ice of Jupiter's moons The atmosphere on Venus appeared harsh and insupportable of life composed of a toxic atmosphere and oceans of acid until scientists concluded that Earth's atmosphere was eerily similar billions of years ago An extraterrestrial colony in some form may already exist just awaiting discovery But the greatest impediment to such an important scientific discovery

may not be technological but political No scientific endeavor can be launched without a budget and matters of money are within the arena of politicians Dr Ben Bova explores some of the key players and the arguments waged in a debate of both scientific and cultural priorities showing the emotions the controversy and the egos involved in arguably the most important scientific pursuit ever begun      **The Mammoth Encyclopedia of Science Fiction** George Mann,2012-03-01 This encyclopedia is the most up to date concise clear and affordable guide to all aspects of science fiction from its background to generic themes and devices from authors established and new to films Science fiction has evolved into one of the most popular cutting edge and exciting fiction genres with a proliferation of modern and classic authors themes and ideas movies TV series and awards Arranged in an A Z format and featuring a comprehensive index and cross referencing system The Mammoth Encyclopedia of Science Fiction is also the most accessible and easy to use encyclopedia of its kind currently available      **Encyclopedia of Science Fiction** Don D'Amassa,2015-04-22 Presents articles on the science fiction genre of literature including authors themes significant works and awards      **The Writers Directory** ,2013      **The Hour of Judgement** Susan R.
