Sambo Sahib:

Sambo Sahib Elizabeth Hay, 1981 *Voices of the Other* Roderick McGillis, 2013-05-13 This book offers a variety of approaches to children's literature from a postcolonial perspective that includes discussions of cultural appropriation race theory pedagogy as a colonialist activity and multiculturalism The eighteen essays divide into three sections Theory Colonialism Postcolonialism The first section sets the theoretical framework for postcolonial studies essays here deal with issues of otherness and cultural difference as well as the colonialist implications of pedagogic practice These essays confront our relationships with the child and childhood as sites for the exertion of our authority and control Section 2 presents discussions of the colonialist mind set in children's and young adult texts from the turn of the century Here works by writers of animal stories in Canada the U S and Britain works of early Australian colonialist literature and Frances Hodgson Burnett's *A Little Princess* come under the scrutiny of our postmodern reading practices Section 3 deals directly with contemporary texts for children that manifest both a postcolonial and a neo colonial content In this section the longest in the book we have studies of children's literature from Canada Australia Africa the Caribbean and the United States *Brown Gold* Michelle Martin, 2004-03-01 *Brown Gold* is a compelling history and analysis of African American children's picturebooks from the mid nineteenth century to the present At the turn of the nineteenth century good children's books about black life were hard to find if indeed young black readers and their parents could even gain entry into the bookstores and libraries But today in the Golden Age of African American children's picturebooks one can find a wealth of titles ranging from *Happy to be Nappy* to *Black is Brown is Tan* In this book Michelle Martin explores how the genre has evolved from problematic early works such as *Epaminondas* that were rooted in minstrelsy and stereotype through the civil rights movement and onward to contemporary celebrations of blackness She demonstrates the cultural importance of contemporary favorites through keen historical analysis scrutinizing the longevity and proliferation of the *Coontown* series and *Ten Little Niggers* books for example that makes clear how few picturebooks existed in which black children could see themselves and their people positively represented even up until the 1960s Martin also explores how children's authors and illustrators have addressed major issues in black life and history including racism the civil rights movement black feminism major historical figures religion and slavery *Brown Gold* adds new depth to the reader's understanding of African American literature and culture and illuminates how the round dynamic characters in these children's novels novellas and picturebooks can put a face on the past a face with which many contemporary readers can identify *The Cavalry Journal*, 1932 *Empire Families* Elizabeth Buettner, 2004-07 What was life like for the British men women and children who lived in late imperial India while serving the Raj *Empire Families* treats the Raj as a family affair and examines how and why many remained linked with India over several generations Due to the fact that India was never meant for permanent European settlement many families developed deep rooted ties with India while never formally emigrating Their lives were dominated by long periods of residence abroad

punctuated by repeated travels between Britain and India childhood overseas followed by separation from parents and education in Britain adult returns to India through careers or marriage furloughs and ultimately retirement in Britain As a result many Britons neither felt themselves to be rooted in India nor felt completely at home when back in Britain Their permanent impermanence led to the creation of distinct social realities and cultural identities Empire Families sets out to recreate this society by looking at a series of families their lives in India and their travels back to Britain Focusing for the first time on the experiences of parents and children alike and including the Beveridge Butler Orwell and Kipling families Elizabeth Buettner uncovers the meanings of growing up in the Raj and an itinerant imperial lifestyle West Africa ,1983

The Bibliotheck ,1983 **When We Were Strolling Players in the East** Louise Jordan Miln,1894 *Major Authors and Illustrators for Children and Young Adults* Joyce Nakamura,1993 Contains updated and revised sketches on nearly 800 of the most widely read authors and illustrators appearing in Gale s Something about the author series Biography and Children Stuart Hannabuss,Rita Marcella,1993 This title examines the perceived value of biographical information and the way in which it is used by librarians and educationalists There is an historical view of literature together with a detailed investigation of contemporary material published for children This book provides a critical and biographical guide to such materials some of which are international but with emphasis on British and American publications *Annual Report and Accounts* Arts Council of Great Britain,1980 **Kaapse bibliotekaris** ,1982 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957 also published separately **Aunt Jemima, Uncle Ben, and Rastus** Marilyn Kern Foxworth,1994-07-30 From the end of the slave era to the culmination of the Civil Rights movement advertising portrayed blacks as Aunt Jemimas Uncle Bens and Rastuses and the author explores the psychological impact of these portrayals With the advent of the Civil Rights movement organizations such as CORE and the NAACP voiced their opposition and became active in the elimination of such advertising In the final chapters the volume examines the reactions of consumers to integrated advertising and the current role of blacks in advertising **The Antioch Review** John Donald Kingsley,1982

Phaedrus ,1986 *Arts & Humanities Citation Index* ,1998 **The Oxford Encyclopedia of Children's Literature: Aamu-Duan** Jack Zipes,2006 Children s literature first became a distinct body of writing and publishing in the eighteenth century Until the seventeenth century children were usually considered as smaller versions of adults As the notion of childhood as a distinct part of life emerged a distinct body of literature emerged as well designed both to entertain and edify this new class of readers But for much of its history books written for children were not seen as worthy of scholarly attention Recently this has changed with everyone from literary critics to psychologists to anthropologists to historians studying this incredibly rich outpouring The Oxford Encyclopedia of Children s Literature is the first multi volume set to document and interpret the books read by children in the English speaking world It includes brief biographies of every major author and illustrator and features essays on all genres of children s literature individual works and prominent trends and themes as

well as general essays on the traditions of children's literature in many countries in the world. A future Oxford Digital Reference Shelf title. For more information visit <http://www.oxfordonline.digitalreference> *Blackwood's Magazine*, 1971

Uncoverings Sally Garoutte, 1993-05 From Colonialism to the Contemporary Lance Weldy, 2006 The compilation of this book has been carefully constructed to convey the essence of its title *From Colonialism to the Contemporary: Intertextual Transformation in World Children's and Youth Literature*. In other words, the different chapters have been selected and ordered to illustrate the chronological effects surrounding the phenomenon of Children's and Youth Literature. While this selection of essays as a whole does not seek to provide an exhaustive historical analysis of literature surrounding and written for children, it does seek to highlight several points in time that will give the reader a sound understanding of certain shifts in ideology found in children's literature. Furthermore, the focus of this book is multivalent and interconnecting. While historically tracing a few texts from around the world along a timeline, this book also seeks to convey the transformative and intertextual nature of these respective texts, thereby revealing that children's literature is not an isolated genre but instead one that conveys and is subject to all the same ideologies as other genres of literature. Furthermore, it is important to note that these chapters highlight texts from around the world as the title expresses. Therefore, the reader can see how audiences have responded to and transformed texts pertaining to such countries as India, the United States, and the United Kingdom, as well as regions like Western Europe and Scandinavia. Meta-narratively speaking, this book also reflects the multinational nature and audience of this book, with contributing scholars writing from and representing various parts of the world. Most importantly, the thread that ties all of these topics together is Transformation.
