Beckett and Nature Charles Clements, Eleanor Green, James Martell, 2025-07-10 New analyses on the insightful ways in which Beckett's work actively engages with contested notions of Nature and the natural, developing a radical version of modernism's main questions and insights. Beckett and Nature takes its cue from contemporary developments in Beckett scholarship focused on ecocriticism, posthumanism, and the Anthropocene, going beyond them into a questioning of the very concepts of Nature and the natural. It examines one of the most unthought ontological dimensions of literature and life: that symbolic space deemed natural or part of Nature appears necessary and undeniable and therefore impossible to be deconstructed. In doing so, the authors show that in fact this space takes on many shapes, recognizing three natural dimensions criticized by Beckett: bodies, worlds, and literatures. Featuring a wide range of both Beckett's work and Beckett scholars, including Jean Michel Rabat and Stanley E. Gontarski, Beckett and Nature offers contextualized readings of the understandings of nature and the natural throughout his decade-spanning oeuvre. The volume shows that part of the radicality of Beckett's writing is that through a variety of evolving techniques and strategies, it questions what appears in our cultures as the most unquestionable and opens up possibilities for thinking not only what is human literature and philosophy but also gender, identity, and any attempt at definitions of ourselves or the world at large. **Samuel Beckett** Cathleen Culotta Andonian, 1989 **Gale Researcher Guide for: Samuel Beckett's Waiting for Godot** Chris Ackerley, Gale Researcher Guide for Samuel Beckett's Waiting for Godot is selected from Gale's academic platform Gale Researcher.
