**The Sanctions Decade** David Cortright,2000      **UN Security Council** Edward C. Luck,2006 Written by best selling author Edward C Luck this new text is broad and engaging enough for undergraduates sophisticated enough for graduates and lively enough for a wider audience interested in the key institutions of international public policy Looking at the antecedents of the UN Security Council as well as the current issues and future challenges that it faces this new book includes historical perspectives the founding vision procedures and practices economic enforcement peace operations and military enforcement human security proliferation and WMD terrorism reform adaptation and change      **Sanktionen des Sicherheitsrats der Vereinten Nationen gegen Individuen** Noah Birkhäuser,2007 Das System der Vereinten Nationen ist darauf ausgerichtet die Beziehungen der Staaten als Hauptakteure des Völkerrechts zu regeln Der Sicherheitsrat der Vereinten Nationen reagiert in diesem System mit einschneidenden Mitteln auf Bedrohungen der internationalen Sicherheit und des Weltfriedens Eines dieser Mittel ist die Auferlegung von Sanktionen gegen die Quelle der Bedrohung Dabei geraten auch nicht staatliche Akteure ins Blickfeld Der Rat geht nicht nur gegen Staaten sondern auch direkt gegen Individuen vor Dies ist ein bislang kaum erforschtes Feld des Völkerrechts Die Studie untersucht alle Sanktionen des Sicherheitsrats Sie zeigt auf wie verbreitet und problematisch Sanktionen gegen nicht staatliche Akteure sind Thematisiert wird ob der Rat rechtlichen Schranken insbesondere den Menschenrechten unterliegt Wenn dem so ist hat er sich an sie Was hätte eine Verletzung der Schranken zur Folge Des Weiteren kommt die Kontrolle des Sicherheitsrats und seiner Handlungen durch nationale und internationale Gremien zur Sprache Zum Schluss widmet sich der Autor der künftigen Entwicklung und bietet Lösungsvorschläge für die dargelegten Probleme an      *Human Security Studies: Theories, Methods And Themes* Sorpong Peou,2014-03-31 Human Security Studies Theories Methods and Themes examines the concept of human security from different theoretical and methodological perspectives and shows how they help shed light on the different themes of global intervention Liberal perspectives represented by global legalism and developmentalism share the optimism that human security can be ensured and enhanced through strengthening global governance Realists remain skeptical about this liberal vision While also critical of the liberal promise critical theorists and feminists offer radical perspectives on human security All these perspectives help explain the challenges of military intervention for human protection micro disarmament international criminal justice smart sanctions human rights and democracy promotion and human development      **The Oxford Handbook of Peace History** Charles F. Howlett,Christian Philip Peterson,Christian Peterson,Deborah D. Buffton,David L. Hostetter,2023 The Oxford Handbook of Peace History uniquely explores the distinctive dynamics of peacemaking across time and place and analyzing how past and present societies have created diverse cultures of peace and applied strategies for peaceful change The analysis draws upon the expertise of many well respected and distinguished scholars from disciplines such as anthropology economics history international relations journalism peace studies sociology and theology

This work is divided into six parts. The first three sections address the chronological sweep of peace history from the Ancient Egyptians to the present while the last three cover biographical profiles of peace advocates, key issues in peace history and the future of peace history. A central theme throughout is that the quest for peace is far more than the absence of war or the pursuit of social justice ideals. Students and scholars alike will appreciate that this work examines the field of peace history from an international perspective and expands analysis beyond traditional Eurocentric frameworks. This volume also goes far beyond previously published handbooks and anthologies in answering what are the strengths and limits of peace history as a discipline and what can it offer for the future. It also has the unique features of a state of the field introduction with a detailed treatment of peace history historiography and a chapter written by a noted archivist in the field that provides a comprehensive list of peace research resources. It is a work ably suited applicable for classrooms and scholarly bookshelves.

**The Prevention and Intervention of Genocide** Samuel Totten, 2008. Over the last twenty years the world has witnessed four major genocides. There was the genocide in Iraq 1988, in Rwanda 1994, in Srebrenica 1995 and in Darfur 2003 and continuing. Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner. This volume, the latest in a widely respected series on the subject of genocide, provides an overview of a host of issues germane to this task. The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years. The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s. Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention. The pros and cons of sanctions and the problems of enforcement and evaluation, their effectiveness, are then discussed. Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking. Later chapters treat the issue of intervention, why and how it has met with only limited success. Concentrating on Rwanda and Srebrenica, chapter 8 discusses various peace operations that were abject failures and those that were moderately successful. The concept of an anti-genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it. Chapters discuss key issues related to post-genocidal periods: those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides. The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity, ensuring deterrence and bringing about reconciliation. The contributors to the volume are all noted scholars, some of whom specialize in the study of genocide and others who specialize in such areas as early warning, peacekeeping and sanctions.

*Indirect Responsibility for Terrorist Acts* Marja Lehto, 2009. The book offers several perspectives to the analysis of the expansion and diversification of international legal responses to terrorism. It focuses in particular on the move during the past decade towards more indirect

forms of responsibility      Global Governance and the UN Thomas G. Weiss, Ramesh Thakur, 2010-04-23 In the 21st century the world is faced with threats of global scale that cannot be confronted without collective action Although global government as such does not exist formal and informal institutions practices and initiatives together forming global governance bring a greater measure of predictability stability and order to trans border issues than might be expected Yet there are significant gaps between many current global problems and available solutions Thomas G Weiss and Ramesh Thakur analyze the UN's role in addressing such knowledge normative policy institutional and compliance lapses The UN's relationship to these five global governance gaps is explored through case studies of some of the most burning problems of our age including terrorism nuclear proliferation humanitarian crises development aid climate change human rights and HIV/AIDS      E+Z, Entwicklung und Zusammenarbeit ,2004      *Transformationen des Staates?* Stephan Leibfried, Michael Zürn, 2006      **Die Friedens-Warte** ,2005      **United Nations Sanctions Management** Paul Conlon, 2000 This remarkable book scrutinizes the rationale and enforcement of the continuing United Nations sanctions in Iraq a program widely criticized for imposing misery on an entire population in a fruitless attempt to humble a cynical tyrant It is the first book length study ever undertaken of the functioning of a Security Council sanctions committee It analyzes in detail substantive UN sanctions law the operation of mandatory Chapter VII sanctions and their practical enforcement strategies The author offers recommendations both legislative and organizational for improving the effectiveness of multilateral sanctions measures in the future Providing a rare insider's view of this aspect of international law and organization and based largely on previously unpublished documents *United Nations Sanctions Management* will be of great interest for the light it sheds on the background to the current UN impasse on Iraq There are two statistical tables four flowcharts lists of committee members and meetings and a select bibliography Published under the auspices of the Procedural Aspects of International Law Institute PAIL For more information about PAIL go to [pail.institute.org](http://pail.institute.org) Published under the Transnational Publishers imprint

**Uniting Against Terror** David Cortright, George A. Lopez, 2007 As terrorist attacks continue around the world from London and Madrid to Afghanistan and Iraq questions multiply about the effectiveness of current antiterrorist strategies America's reliance on military approaches and the Bush administration's avowal of a constant state of war have overshadowed nonmilitary multilateral efforts and there has been an analogous neglect of these alternative strategies in the literature on terrorism *Uniting Against Terror* fills this gap examining and evaluating post 9/11 cooperative nonmilitary responses to the global terrorist threat with a particular focus on efforts of the United Nations the Financial Action Task Force the European Union and a wide array of multilateral institutions *Uniting Against Terror* argues that defeating the global terrorist threat requires engaging international financial diplomatic intelligence and defense communities and law enforcement organizations in an atmosphere of cooperation It examines cooperative diplomatic and economic policies to address the changing face of terrorism and the global Al Qaida threat differentiates between protective measures and long
