**The Swahili Coast** ,1998      **The Indian travels of Apollonius of Tyana, and the Indian embassies to Rome from the reign of Augustus to the death of Justinian** Osmond de Beauvoir Priaulx,1873      **The Indian Travels of Apollonius of Tyana** Osmond de Beauvoir Priaulx,1873      **Sea of Zanj** Roumelia Lane,1969      *My Kalulu, Prince, King, and Slave* Henry Morton Stanley,1890      **In Our Own Image** Judy Seidman,1990      Islamic Culture ,1971      **The Haunted Islands** Eric Herne,1968      **The Archaeology of Tanzanian Coastal Landscapes in the 6th to 15th Centuries AD** Edward John David Pollard,2008 This study seeks insights into the peoples and traditions of the Tanzanian coast East Africa during the 6th to 15th century through the application of archaeological survey and excavation techniques in the vicinity of the two important trading centres of Kaole and Kilwa It adopts a maritime cultural landscape perspective an approach that has seen very limited previous application to the East African coast despite the central role played by the sea in the development of its port settlements and exploitation of its resources Six themes are covered namely the identification of coastal settlement sites and establishment of their chronology recognition of principal phases in settlement development exploitation of maritime resources and economy identification of settlement location in relationship to the physical environment of the coast establishment of the hierarchical nature of coastal settlement and recognition of the principal harbour and port types      *World History* William J. Duiker,Jackson J. Spielvogel,1997 This is a comprehensive introduction to world civilizations to 1500 It covers each major civilization such as China India and Europe and provides points of comparison between and among these civilizations It emphasizes breadth and accessibility and contains a wealth of primary source documents beautiful full color maps and interesting teaching and learning supplements to help students appreciate the complexity of the topic while enjoying its application to their lives      **Arc of the Sun** Giovanni Flores,Ellen Sue Blakey,1987      **Mozambique** ,2008      Race and Slavery in the Middle East Bernard Lewis,1990 From before the days of Moses up through the 1960s slavery was a fact of life in the Middle East Pagans Jews Christians and Muslims bought and sold at the slave markets for millennia trading the human plunder of wars and slave raids that reached from the Russian steppes to the African jungles But if the Middle East was one of the last regions to renounce slavery how do we account for its and especially Islam s image of racial harmony How did these long years of slavery affect racial relations In *Race and Slavery in the Middle East* Bernard Lewis explores these questions and others examining the history of slavery in law social thought and practice over the last two millennia With 24 rare and intriguing full color illustrations this fascinating study describes the Middle East s culture of slavery and the evolution of racial prejudice Lewis demonstrates how nineteenth century Europeans mythologized the region as a racial utopia in debating American slavery Islam in fact clearly teaches non discrimination but Lewis shows that prejudice often won out over pious sentiments as he examines how Africans were treated depicted and thought of from antiquity to the twentieth century If my color were pink women would love me But the Lord has

marred me with blackness lamented a black slave poet in Arabia over a millennium ago and Lewis deftly draws from these lines and others the nuances of racial relations over time Islam he finds restricted enslavement and greatly improved the lot of slaves who included until the early twentieth century some whites while blacks occasionally rose to power and renown But abuses ring throughout the written and visual record from the horrors of capture to the castration and high mortality which along with other causes have left few blacks in many Middle Eastern lands despite centuries of importing African slaves Race and Slavery in the Middle East illuminates the legacy of slavery in the region where it lasted longest from the days of warrior slaves and palace eunuchs and concubines to the final drive for abolition Illustrated with outstanding reproductions of striking artwork it casts a new light on this critical part of the world and on the nature and interrelation of slavery and racial prejudice

Race Vincent Sarich, 2018-03-05 The conventional wisdom in contemporary social science claims that human races are not biologically valid categories Many argue the very words race and racial differences should be abolished because they support racism In Race Vincent Sarich and Frank Miele challenge both these tenets First they cite the historical record the art and literature of other civilizations and cultures morphological studies cognitive psychology and the latest research in medical genetics forensics and the human genome to demonstrate that racial differences are not trivial but very real They conclude with the paradox that while scientific honesty requires forthright recognition of racial differences public policy should not recognize racial group membership The evidence and issues raised in this book will be of critical interest to students of race in behavioral and political science medicine and law

The Case of the Animals Versus Man Before the King of the Jinn Lenn E. Goodman, Richard McGregor, 2012-01-26 This is a new English translation of a classic of medieval Islamic learning which illuminates the intellectual debates of its age and speaks vividly to the concerns of our own It is the most famous work of the Brethren of Purity a tenth century esoteric fraternity based in Basra and Baghdad In this rich allegorical fable the exploited and oppressed animals pursue a case against humanity They are granted the gift of speech and presented as subjects with views and interests of their own Over the course of the hearing they rebuke and criticise human weakness deny man's superiority and make powerful demands for greater justice and respect for animals This sophisticated moral allegory combines elements of satire with a thought provoking thesis on animal welfare Goodman and McGregor accompany their translation with an introduction and annotations that explore the rich historical and cultural context to the work
