Incorporated* Sears, Roebuck and Company, 1894 **Consumer's Guide, 1894** Sears, Roebuck and Company, 197? The Carriage Trade Thomas A. Kinney, 2004-10-13 Co Winner of the 2005 Hagley Business History Book Prize given by the Business History Conference In 1926 the Carriage Builders National Association met for the last time signaling the automobile s final triumph over the horse drawn carriage Only a decade earlier carriages and wagons were still a common sight on every Main Street in America In the previous century carriage building had been one of the largest and most dynamic industries in the country In this sweeping study of a forgotten trade Thomas A Kinney extends our understanding of nineteenth century American industrialization far beyond the steel mill and railroad The legendary Studebaker Brothers Manufacturing Company in 1880

produced a hundred wagons a day one every six minutes Across the country smaller factories fashioned vast quantities of buggies farm wagons and luxury carriages Today if we think of carriage and wagon at all we assume it merely foreshadowed the automobile industry Yet the carriage industry epitomized a batch work approach to production that flourished for decades Contradicting the model of industrial development in which hand tools small firms and individual craftsmanship simply gave way to mechanized factories the carriage industry successfully employed small scale business and manufacturing practices throughout its history The Carriage Trade traces the rise and fall of this heterogeneous industry from the pre industrial shop system to the coming of the automobile using as case studies Studebaker the New York based luxury carriage maker Brewsters and dozens of smaller firms from around the country Kinney also explores the experiences of the carriage and wagon worker over the life of the industry Deeply researched and strikingly original this study contributes a vivid chapter to the story of America's industrial revolution

### **Consumer Choice in Historical Archaeology** S.M.

Spencer Wood, 1987-06-30 Historical archaeology has made great strides during the last two decades Early archaeological reports were dominated by descriptions of features and artifacts while research on artifacts was concentrated on studies of topology technology and chronology Site reports from the 1960s and 1970s commonly expressed faith in the potential artifacts had for aiding in the identifying socioeconomic status differences and for understanding the relationships between the social classes in terms of their material culture An emphasis was placed on the presence or absence of porcelain or teaware as an indication of social status These were typical features in site reports written just a few years ago During this same period advances were being made in the study of food bone as archaeologists moved away from bone counts to minimal animal counts and then on to the costs of various cuts of meat Within the last five years our ability to address questions of the relationship between material culture and socioeconomic status has greatly expanded The essays in this volume present efforts toward measuring expenditure and consumption patterns represented by commonly recovered artifacts and food bone These patterns of consumption are examined in conjunction with evidence from documentary sources that provide information on occupations wealth levels and ethnic affiliations of those that did the consuming One of the refreshing aspects of these papers is that the authors are not afraid of documents and their use of them is not limited to a role of confirmation

**Sears, Roebuck, U.S.A.** Gordon Lee Weil, 1977

The biggest and the richest retail business in the U S A is Sears Roebuck and Co Annual sales of Sears represent more than one

percent of the Gross National Product This book is the consumer's guide to how Sears does our business More than that this book is the fantastic story characteristically American of a business that grew so fast it almost toppled over on its own success and of the three remarkable men who made it work     **The Hard Road to the Softer Side** Arthur C.

Martinez, Charles Madigan, 2001 The leader of one of the fastest turnarounds of any major corporation in history Sears CEO Arthur Martinez provides invaluable lessons from the company's near death experience     **Character Is Capital** Judy

Hilkey, 2000-11-09 In late nineteenth century America a new type of book became commonplace in millions of homes across the country Volumes sporting such titles as *The Way to Win* and *Onward to Fame and Fortune* promised to show young men how to succeed in life But despite their upbeat titles success manuals offered neither practical business advice nor a simple celebration of the American Dream Instead as Judy Hilkey reveals they presented a dire picture of an uncertain new age portraying life in the newly industrialized nation as a brutal struggle for survival but arguing that adherence to old fashioned virtues enabled any determined man to succeed Hilkey offers a cultural history of success manuals and the industry that produced and marketed them She examines the books appearance iconography and intended audience primarily native born rural and small town men of modest means and education and explores the genre's use of gendered language to equate manhood with success femininity with failure Ultimately argues Hilkey by articulating a worldview that helped legitimate the new social order to those most threatened by it success manuals urged readers to accommodate themselves to the demands of life in the industrial age     **A Selected Bibliography of Historical Artifacts, C. 1760-1920** Mary Margaret
