as part of the cultural intertext Cinema is a vivid example of the role and impact of the Bible in contemporary society In this well theorized collection of essays the issue is treated from several angles Using the methodology of theology the question of the alleged escapism of popular cinema is explored Using the methodology of media studies the impact of the media on religious communication is analysed And using the methodology of religious studies the influence of the cinema in the creation of new religious behaviour and religious institutions is investigated In addition the book offers fruitful analyses of the cinematic use of biblical themes such as Eden salvation Mary Magdalene and Jesus as well as of the cinematic application of ethical themes such as truth telling personal growth suffering the accomplishment of good and the creating of meaning for human beings
