Realism And Racism Concepts Of Race In Sociological Research:

Realism and Racism Bob Carter, 2002-01-04 There are continuing difficulties within social science surrounding concepts of race This book suggests that these difficulties stem from the uncertain ontological and epistemological status of ideas about race itself a consequence of the recognition that concepts of race have all but lost their relevance as sociologically significant descriptions This book surveys ways in which social scientists have attempted to come to terms with this situation before developing an alternative approach based on recent work by realist authors This approach offers a radical revision of orthodox debates about race concepts about the possibility of a social science and about the nature of empirical research This illustrated through two policy examples an account of post war migration to the UK and debates about trans racial adoption in the UK and the USA

Qualitative Methods in Migration Studies Dr Theodoros Iosifides, 2013-01-28 Recent years have witnessed growing interest in a series of issues related to migration including identity formation and change the role of social capital and social networks ethnic discrimination racism and xenophobia socio political participation and mobilisation and the complex nature of the causal mechanisms linked to migration issues that are better highlighted and investigated using qualitative methods Moving away from the quantitative and empiricist positivist approaches that have often characterised migration research Qualitative Methods in Migration Studies explores in a concise but comprehensive way the key issues involved in researching migratory phenomena in a qualitative manner It addresses themes including the basic characteristics of contemporary migration qualitative research into social processes related to migration and the relationship between theory research design and practice Drawing upon empirical case studies and a series of real and hypothetical examples the book develops a critical realist alternative both to empiricism and interpretivist social constructionist and post structuralist relativism in qualitative migration research With special emphasis on the meta theoretical dimensions of qualitative research practice this volume connects qualitative findings to policy formation and politics making exploring the multiple dimensions involved in researching migratory phenomena such as ontology epistemology methodology ethics and research practice As such it will be of interest to students and researchers in migration across the social sciences

The Rise and Fall of the Caucasian Race Bruce Baum, 2008-07-01 The term Caucasian is a curious invention of the modern age Originating in 1795 the word identifies both the peoples of the Caucasus Mountains region as well as those thought to be Caucasian Bruce Baum explores the history of the term and the category of the Caucasian race more broadly in the light of the changing politics of racial theory and notions of racial identity With a comprehensive sweep that encompasses the understanding of race even before the use of the term Caucasian Baum traces the major trends in scientific and intellectual understandings of race from the Middle Ages to the present day Baum s conclusions make an unprecedented

attempt to separate modern science and politics from a long history of racial classification He offers significant insights into our understanding of race and how the Caucasian race has been authoritatively invented embraced displaced and recovered throughout our history Dictionary of Critical Realism Mervyn Hartwig,2015-01-30 Dictionary of Critical Realism fulfils a vital gap in the literature Critical Realism is often criticised for being too opaque and deploying too much jargon thereby making the concepts inaccessible for a wider audience However as Hartwig puts it Just as the tools of the various skilled trades need to be precision engineered for specific interrelated functions so meta theory requires concepts honed for specific interrelated tasks it is impossible to think creatively at that level without them This Dictionary seeks to redress this problem to throw open the important contribution of Critical Realism to a wider audience for the first time by thoroughly explaining all the key concepts and key developments It includes 500 entries on these themes and has contributions from major players in field However this text does not stop there it goes further than simply elucidating the concepts and includes a number of essays which use the notions in important areas thereby demonstrating the appropriate use of the concepts in action to encourage their wider use This book will become a requisite reference tool for Critical Realist scholars and Philosophers and Social scientists alike will enjoy this vital introduction and explanatory text of the indispensable ideas contained within the dynamic and vibrant school of Critical Realism Race and Racism in 21st-Century Canada B. Singh Bolaria,Sean P. Hier,2007-05 This is the book that many of us in the field of race scholarship have been waiting for Minelle Mahtani University of Toronto Scarborough Critical Realism and the Social Sciences Frank Pearce,Jon Frauley,2007-12 Critical Realism and the Social Sciences brings together contributors from both sides of the Atlantic all of whom engage with tenets of critical realism juxtaposing them with traditional representations of social scientific enquiry *Racial Science and British Society, 1930-62* Gavin Schaffer,2008-09-02 The study of race has been an important feature in British universities for over a hundred years During this time academic understanding of what race describes and means has changed and developed as has the purpose of racial study Once considered the preserve of biologists and physical anthropologists over the course of the last century the study of race has transferred mostly into social scientific disciplines such as sociology This book explores this passing of authority on racial matters in the context of international and domestic political issues In a period which spans the rise and fall of Nazism the onset of the Cold War the birth of Apartheid and the death of legal US segregation *Racial Science and British Society 1930 62* considers the relationship between science politics and ideology arguing that racial scholarship in Britain was shaped in every period by factors outside of science At the same time it argues that it is possible to see the influence of expert racial scholarship in every significant action of government immigration policy during this period This major new study of Twentieth century Britain calls into question the impact of racial ideas on British society and probes into the nature of knowledge production in science Canadian Journal of Law and Society ,2004 **International Journal of the Sociology of Language** ,2001 **Researching Race** Hasmita Ramji,2009 Social sciences Radical Philosophy
