## **Reappearance Of The Christ:**

**The Reappearance of the Christ** Alice Bailey, Djwhal Khul, 2012-03-13 Many religions today expect the coming of an Avatar or Saviour The second coming of the Christ as the world Teacher for the age of Aquarius is presented in this book as an imminent event a continuity of divine revelation throughout the ages The Christ belongs to all mankind and can be known and understood as the same great Identity in all the world religions

**The Reappearance of the Christ** Alice Anne LaTrobe-Bateman Bailey, 1981 *The Reappearance of the Christ* Alice Bailey, 1948 In every age I come back to deliver the holy to destroy the sin of the sinner to establish righteousness So runs the well known passage in the Bhagavad Gita translation by Prabhavananda and Isherwood giving works to an eternal hope in the human heart In this book the reappearance of the Christ is recognised as inevitable within the continuity of divine revelation Not only has God never left Himself without witness but at definite periods in the history of human evolution the word of God the projected potency of His vital life has manifested in form in order to establish the principles to be demonstrated during the coming cycle There have been many such messengers over the ages manifesting through one or another of the great world religions or followed by a new form of religion based on the new revelation Divine revelation and the periodic appearance of messengers or Avatars occur however according to cosmic law when certain conditions exist within the whole scheme affected by and affecting every part large and small Then a chain of events is set in motion which under law must eventually work out functioning system of inter relationships seems to be of vital importance at this time The esoteric and planetary significances of the reappearance of the Christ are suggested in this book as underlying causes for His Aquarian service to humanity This is the beginning and end of an age the beginning of Aquarius and the end of Pisces marking also a major turning point in the evolution of human consciousness from individual need to the needs of humanity as a whole from personal salvation to world service and from materiality to spirituality It seems that this climaxing transition must be marked in both its stages beginning and end by the Christ Himself and a principle anchored in human consciousness which embodies not only the love of God established for the age of Pisces but also the new potency for the future the Will of God into which only the Christ is as yet fully and perfectly absorbed The imminence of the reappearance of the Christ is sensed and expected by many belonging as He does to all humanity irrespective of differing religious dogma and doctrine of His appearance and the area of His work in a way which creates no divisions or separations between men either religious social or ideological Not only does He come as the first Son of God but as Head of the spiritual Hierarchy the inner government of the planet He is therefore a great world executive representing the Kingdom of God and fulfilling a definite function in the world of men He is coming to establish through precept and example in world service the principles on which a united interdependent and interactive world may create its new material systems and spiritual institutions for the new civilisation Preparation for the second coming is the responsibility of humanity it is for those who know and accept the imminent return of the Christ to prepare men s minds and

hearts to recognise and receive Him and to create those conditions of balance and spiritual alignment which will ultimately draw Him forth into our midst no matter what principle or energy He may anchor on Earth for human use He is not coming to save humanity from the results of its own sins but once more to show humanity how to save itself in the new conditions and new opportunities with which the world is faced

**The Reappearance of Christ in the Etheric** Rudolf Steiner,2003

The first chapter of the Acts of the

Apostles describes Christ s Ascension And a cloud received him out of their sight As the disciples looked up two angels

appeared and told them This same Jesus taken up from you into heaven shall come again in the same way as you have seen

him go In 1910 Rudolf Steiner began a series of lectures announcing the advent of Christ s appearance in the sphere of the

earth s etheric or life body At first he said only a few will be aware of it but in time more and more people regardless of

religious affiliation will be strengthened comforted and infused by the Christ s living presence Such Damascus experiences

bespeaking a new natural clairvoyance Steiner argues will become increasingly common The Christ will become a living

comforter he writes However strange it may seem it is nevertheless true that often when people even in considerable

numbers are sitting together not knowing what to do and waiting they will see the etheric Christ He will be there will confer

with them and will cast his word in such gatherings We are now approaching these times This collection contains Steiner s

lectures on this theme as well as on important related questions such spiritual science and etheric vision the etheric vision of the future the etherization of the blood the Sermon on the Mount and the land of Shambhala the mysteries of comets and the Moon Buddhism and Pauline Christianity spirit beings and the ground of the world and the three realms between death and rebirth The Reappearance of Christ in the Etheric collects much of Rudolf Steiner's most important discussions of esoteric Christianity especially as it relates to the central place of the Christ being in world and human evolution     **New Testament Theology** Willibald Beyschlag, 1899     **The British Controversialist and Literary Magazine** , 1872     Books of Light , 1988 This book introduces the reader to the best books of the new age both nonfiction and fiction alike giving each a full review     *An Introduction to the New Testament* Marcus Dods, 1888     **The Age of Reason** Thomas Paine, 1898     **An Introduction to the Study of the New Testament** Samuel Davidson, 1882     *Speech in Season* Hugh Reginald Haweis, 1875     **The Encyclopedic Sourcebook of New Age Religions** James R. Lewis, 2004 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon     *The Langham hall pulpit [afterw.] Theistic sermons* Charles Voysey, 1878
