Giancarlo Lucchetti,Juliane Piasseschi de Bernardin Gonçalves,Homero Vallada,Rocío De Diego-Cordero ,Bárbara Badanta,2025-12-04 The mental health burden is increasing posing challenges to healthcare systems worldwide Aiming to reduce this burden new models of care are using some concepts of the positive psychology to generate observational evidence and to propose interventions such as the case of values virtues and flourishing Flourishing is defined by VanderWeele as the relative attainment of a state in which all aspects of a person s life are good

including the contexts in which that person lives which includes domains of human life such as i happiness and life satisfaction ii health both mental and physical iii meaning and purpose iv character and virtue and v close social relationships and four pathways i e family work education and religious community These domains have been increasingly studied over the past decades and are based on a less disease oriented and a more person centred view of healthcare Although there is a consolidated literature investigating the factors associated with mental health and well being among different populations more evidence is needed concerning the role of values virtues and flourishing This research topic aims to understand further the role of flourishing or its associated factors on the well being and mental health of different populations bringing new insights and novel approaches to address the mental health of individuals For this topic we are considering the following associated factors of flourishing forgiveness meaning purpose character virtues kindness altruism volunteering spirituality religiosity transcendence gratitude savoring compassion resilience family and flourishing as a general term preferred To achieve this goal we are seeking high quality studies that could bring novel findings generate robust data propose new interventions and explore the mechanisms of actions for the relationship between different domains of flourishing and mental health This Research Topic will include the following topics Understanding the definitions and concepts of flourishing based on systematic or scoping reviews of the literature Systematic reviews with meta analysis concerning the association between flourishing or its associated factors on the mental health and or well being of individuals Observational preferred longitudinal studies assessing how flourishing or its associated factors may have an influence on the mental health and well being among different populations Studies experimental or quasi experimental proposing and investigating the effectiveness of different flourishing interventions or its associated factors on the mental health and well being of individuals Studies addressing the mechanisms by which flourishing or its associated factors may lead to mental health and well being outcomes Studies that use instruments scales of flourishing Qualitative studies following COREQ or SRQR checklists aiming to understand flourishing and its relationship with mental health

Exodus from Rome Volume 1 Dr. Todd D. Baker, 2014-05-01 Written by a former Roman Catholic of eighteen years and former candidate for the Roman Catholic priesthood Dr Todd Baker objectively and honestly examines the grandiose claims of the Papacy and the Roman Catholic Church in the critical light of Scripture and the evidence of history to show where Rome has greatly erred This multi volume work provides a controversial overview on the basic doctrines distinctive of Roman Catholicism so the open Catholic can learn how these beliefs practices and traditions of Rome contradict Scripture and do not have the support of a consistent uniform history from the days of Jesus the apostles and the first three centuries of the early church and on With over 1 billion adherents to the Roman Catholic Church it is incumbent for the Bible believer to know the difference between the real Gospel of Scripture versus the Gospel of Rome and how they are not one and the same Gospel in the end In a day of man pleasing ecumenical compromise with Rome this book is sorely needed to remind the Protestant church that the real differences between Rome and the Bible

have not changed since the Reformation and must be reiterated and defended today on the exclusive ground of Scripture alone being the supreme authority in faith and practice for every Christian believer Dr Todd D Baker is president of Brit Hadashah Ministries and Pastor of Shalom Shalom Messianic Congregation in Dallas Texas He holds a Bachelor of Science degree in biblical studies a Master of Theology degree from Dallas Theological Seminary and a Ph D in Philosophy and Apologetics from Trinity Seminary under the auspices of Liverpool University at Liverpool England He is the staff theologian and writer for Zola Levitt Ministries and has appeared on the television program Zola Levitt Presents several times With his extensive experience in Jewish evangelism he conducts Gospel outreaches to Israel three times a year
