**Bilder der Alterität - Alterität der Bilder** Julia Kloss-Weber, 2024-12-30 Im Mittelpunkt der Untersuchung stehen Wandmalereien Skulpturen Bilderhandschriften sowie Körperbilder des 16. Jahrhunderts in Mexiko. Julia Kloss Weber analysiert inwiefern viele der im Rahmen der Neuspanien Mission entstandenen Bilder Alterität also Identität stiftende Andersartigkeit thematisieren. Gleichzeitig fragt sie nach jener Form von Alterität, die Bildern als Spannungsfelder einer ikonischen Differenz Gottfried Boehm zukommt. Dadurch werden zwei Diskursfelder zusammengeführt, die sich bisher weitgehend unabhängig voneinander entwickelt hatten: Reflexionen auf Konstruktionen des Anderen im Rahmen der Postcolonial Studies und bildtheoretische Debatten. So wird deutlich, inwiefern Bilder nicht nur zwischen Kulturen vermitteln, sondern selbst Gegenstand transkultureller Übersetzungsprozesse sind.

**Ritual Human Sacrifice in Mesoamerica** Rubén G. Mendoza, Linda Hansen, 2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica. The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice, cannibalism, and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow. They study the developments in sacrifice rituals through the centuries into the first millennium CE, when the Mexica, Aztec, and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts, modes, and manners of death, and associated deities to articulate the necro-cultures and blood tribute of the times. The chapters further study present-day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates. The interdisciplinary effort undertaken by this international cadre of scientists, including anthropologists, bioarchaeologists, art historians, ethnohistorians, iconographers, and religious studies experts, provides a particularly rich forum for launching an interrogation into the role of conflict, environment, and social complexity in the emergence and persistence of ritual violence and human sacrifice in the Mesoamerican world.

**Framing the Sacred** Eleanor Wake, 2012-11-08 Christian churches erected in Mexico during the early colonial era represented the triumph of European conquest and religious domination. Or did they? Building on recent research that questions the cultural conquest of Mesoamerica, Eleanor Wake shows that colonial Mexican churches also reflected the beliefs of the indigenous communities that built them. European authorities failed to recognize that the meaning of the edifices they so admired was being challenged: pre-Columbian iconography integrated into Christian imagery, altars oriented toward indigenous sacred landmarks, and carefully recycled masonry. In *Framing the Sacred*, Wake examines how the art and architecture of Mexico's religious structures reveals the indigenous people's own decisions regarding the conversion program and their accommodation of the Christian message. As Wake shows, native peoples selected aspects of the invading

culture to secure their own culture's survival. In focusing on anomalies present in indigenous art and their relationship to orthodox Christian iconography, she draws on a wide geographical sampling across various forms of Indian artistic expression including religious sculpture and painting, innovative architectural detail, cartography, and devotional poetry. She also offers a detailed analysis of documented native ritual practices that she argues assist in the interpretation of the imagery. With more than 200 illustrations, including 24 in color, *Framing the Sacred* is the most extensive study to date of the indigenous aspects of these churches and fosters a more complete understanding of Christianity's influence on Mexican peoples. *In the Shadow of Cortés* Kathleen Ann Myers, 2015-10-15 Five hundred years ago the army of conquest led by Hernán Cortés marched hundreds of miles across a rugged swath of land from Veracruz on the Mexican Caribbean to the capital city of the Aztecs, now Mexico City. This journey was the catalyst for profound cultural and political change in Mesoamerica. Today many Mexicans view the Ruta de Cortés as a symbol of an event that forever changed the course of their history. But few U.S. Americans understand how the conquest still affects Mexicans' national identity and their relationship with the United States. Following the route of Hernán Cortés, *In the Shadow of Cortés* offers a visual and cultural history of the legacy of contact between Spaniards and indigenous civilizations. The book is a reflective journey that presents a diversity of voices, images, and ideas about history and conquest. Specialist in Mexican culture, Kathleen Ann Myers teams up with prize-winning translators and photographers to offer a unique reading experience that combines accessible interpretative essays with beautifully translated interviews and dozens of historical and contemporary black and white and color images, including some by award winner Steven Raymer. The result offers readers multiple perspectives on these pivotal events as imagined and re-envisioned today by Mexicans both in their homeland and in the United States. *In the Shadow of Cortés* offers an extensive visual narrative about conquest and ultimately about Mexican history. It traces the symbolic geography of the conquest and shows how the historical memory of colonialism continues to shape lives today. *Rereading the Black Legend* Margaret R. Greer, Walter D. Mignolo, Maureen Quilligan, 2008-09-15 The phrase *The Black Legend* was coined in 1912 by a Spanish journalist in protest of the characterization of Spain by other Europeans as a backward country defined by ignorance, superstition, and religious fanaticism, whose history could never recover from the black mark of its violent conquest of the Americas. Challenging this stereotype, *Rereading the Black Legend* contextualizes Spain's uniquely tarnished reputation by exposing the colonial efforts of other nations whose interests were served by propagating the Black Legend. A distinguished group of contributors here examine early modern imperialisms, including the Ottomans in Eastern Europe, the Portuguese in East India, and the cases of Mughal India and China, to historicize the charge of unique Spanish brutality in encounters with indigenous peoples during the Age of Exploration. The geographic reach and linguistic breadth of this ambitious collection will make it a valuable resource for any discussion of race, national identity, and religious belief in the European Renaissance.
