Scott Lithgow Lewis Johnman, Hugh Murphy, 2017-10-18 This work studies the history of two major Scottish shipbuilding firms based on the River Clyde Scotts Shipbuilding and Engineering Company and Lithgows Limited It traces each firm's origin success decline and collapse and places the events into the historical context of maritime Britain The aim is to enhance the academic understanding of the cause and effect of the decline of the British shipbuilding industry delving beyond the factors of poor industrial relations international market conditions and entrepreneurial failure in search of further answers As a private company Lithgows Limited provides useful insights into company management outside of state control The authors base their analysis on the catalogued volumes of Scotts and Lithgows records though due to the large number of gaps in the data they also conducted interviews with major players in each company from the post war period Public business and banking records also provide supplementary material The book is separated into eight chapters plus a concluding ninth an appendix listing ships built by Scott Lithgow Limited between 1970 1987 and a select bibliography **Crossing the Bar** Anthony Slaven, Hugh Murphy, 2017-10-18 This book is a collection of sixty interviews with key figures in British shipbuilding ship repair and marine engine building industries across the United Kingdom plus government and civil service members in the sector from the 1960s to the 1980s The aim of the project is to understand the economic social and political environment of the shipping industry from the perspective of those who worked in it The interviews place the twentieth century decline of British shipbuilding into a firm context The topics covered include international competition a recurring pertinent theme labour difficulties industry modernisation the attitude of shipowners the strong belief in traditional methods which kept many of those in the industry from recognising the cheaper faster and better quality work taking place overseas and leaving Britain behind ship production and production control the postwar boom shipyard overcrowding the decline of the domestic industry in favour of the international marketing weaknesses trade disputes and trade unions and nationalisation and privatisation concerns Opinions and viewpoints often conflict particularly between the perspectives of those working within the industry

and the civil servants working outside of it but the interviews are presented as a unit and the reader is encouraged to draw their own conclusion The result is a unique historical archive that offers a multitude of firsthand perspectives on the British shipping decline open to interpretation by historians and future researchers It includes a preface introduction and select bibliography The interviews are grouped together by location and role **Shipping World & Shipbuilder** ,1981
