Seamanship A Voyage Along The Wild Coasts Of The British Isles:

Seamanship Adam Nicolson, 2007-08-14 From Land's End to Cape Clear past Roaringwater Bay and Cod's Head on past Inishvickillane and Inishtooskert up through the Hebrides to Orkney and on to the Faeroes stretches the richest and wildest coastline in Europe Adam Nicolson decided to sail this coast in the Auk a 42 foot wooden ketch embarking on a 1 500 mile voyage through what he hoped would be a sequence of revelatory landscapes He was not disappointed Seamanship is more than a travel journal It describes an inner journey as much as an outer one disasters and discoveries powerful landscapes and modern visionaries and encounters with the animals living on the wild edge of the Atlantic Above all it is about the gaps that open up between those who go and those who stay at home Seamanship in the end is not about the sea It's about being alive

Coastal Works Nicholas Allen, Nick Groom, Jos Smith, 2017-07-04 In all the complex cultural history of the islands of Britain and Ireland the idea of the coast as a significant representative space is critical For many important artists coastal space has figured as a site from which to braid ideas of empire nation region and archipelago They have been drawn to the coast as a zone of geographical uncertainty in which the self definitions of the nation founder they have been drawn to it as a peripheral space of vestigial wildness of island retreats and experimental living as a network of diverse localities richly endowed with distinctive forms of cultural heritage and as a dynamically interconnected ecosystem which is at the same time the historic site of significant developments in fieldwork and natural science This collection situates these cultures of the Atlantic edge in a series of essays that create new contexts for coastal study in literary history and criticism The contributors frame their research in response to emerging conversations in archipelagic criticism the blue humanities and island studies the essays challenging the reader to reconsider ideas of margin periphery and exchange These twelve case studies establish the coast as a crucial location in the imaginative history of Britain Ireland and the north Atlantic edge Coastal Works will appeal to readers of literature and history with an interest in the sea the environment and the archipelago from the 18th century to the present Accessible innovative and provocative Coastal Works establishes the important role that the coast plays in our cultural imaginary and suggests a range of methodologies to represent relationships between land sea and cultural work
