Seaports And Development The Experience Of Kenya And Tanzania:

Seaports and Development B. S. Hoyle, 2010-11-26 This book originally published in 1983 demonstrates the importance of seaports in the growth of less developed countries The author focuses on the character of port activity within the context of transport systems and regional economic planning General principles of port development are illustrated by detailed reference to one Third World port group that of the Indian Ocean coasts of Kenya and Tanzania The objective is not merely to illustrate the character of one specific group of ports but to demonstrate methods of analysis and to underline the crucial role of ports in the development process Ports, Port Cities, and Coastal Zones B. Campbell, 1995 Development Studies, Register of Research in the United Kingdom, 1979 *The Political Economy of Kenya* Michael G. Schatzberg, 1987-11-17 The Political Economy of Kenya is a collection of timely and up to date essays focusing on the interaction of politics and economics in Kenya's domestic political arena The essays written by scholars from Kenya the United States and Great Britain contain in depth presentation based on contemporary research For example the contributors stress the interdependence of politics and economics in determining political outcomes and examine the Kenyan political system in that light Chapters discuss such topics as Kenyan agriculture urbanization and spatial planning public enterprises public policy and reform and specific case studies on labor and social issues *Cityports, Coastal Zones and Regional Change* B. S. Hoyle, 1996-08-30 Even in the late 20th Century there remains a complex web of spatial inter relationships linking port cities and coastal zones Cityports Coastal Zones and Regional Change brings together seventeen authors to explore aspects of these inter relationships Many of the chapters were first discussed at an intensive British Italian Seminar held in Venice in 1994 and have subsequently been substantially revised edited and updated The essential focus of the book is on the role of port cities in the development and management of the coastal zones within which they are located There is a strong emphasis on environmental issues economic diversification and planning While most of the numerous case studies featured are British or Italian other areas represented include Scandinavia Eastern Europe the Balkans Tropical Africa and North America An overview of cityports and coastal zones in the context of sustainable development provides a timely and forward looking conclusion and makes the book ideal for researchers and students of transport geography urban geography port studies and coastal zone management worldwide **Encyclopedia of Africa South of the Sahara** John Middleton, 1997 Arranged alphabetically In addition to biographies extensive country information primarily postindependence and historical events the encyclopedia treats general topics in articles such as agriculture political systems and religion and ritual Global Transport Issues Rodney S. Sayareh,Barrie Lewarn,2006 *Port Development and Competition in East and Southern Africa* Martin Humphreys,Aiga Stokenberga,Matias Herrera Dappe,Olivier Hartmann,2019-07-16 Port Development and Competition in East and Southern Africa analyzes the 15 main ports in East and Southern Africa ESA to assess whether their proposed capacity enhancements are justified by current and projected demand whether the current port management approaches sufficiently address not only the maritime capacity needs but also other impediments to port efficiency and what the expected hierarchy of ports in the region will be in the future The analysis confirms the need to increase maritime capacity as the overall container demand in the ports in scope is predicted to begin exceeding total current capacity by between 2025 and 2030 while gaps in terms of dry and liquid bulk handling are expected even sooner However in the case of many of the ports the issue of landside access the ports intermodal connectivity the ease of international border crossing and the port city interface is more important than the need to improve maritime access and capacity The analysis finds that there is a need to improve the operating efficiency in all of the ESA ports as they are currently less than half as productive as the most efficient ports in the matched data set of similar ports across the world in terms of efficiency in container handling operations Similarly there is a need to improve and formalize stakeholder engagement in many of the ports to introduce modern management systems and to strengthen the institutional framework to ensure the most efficient use of the infrastructure and to be able to attract private capital and specialist terminal operators Finally given the ports geographic location and proximity to main shipping routes available draft and the ongoing port and hinterland development the book concludes that Durban and Djibouti are the most likely to emerge as the regional hubs in ESA s future hub and spoke system **The International Journal of African Historical Studies** ,1984

Ofcansky,Rodger Yeager,1997-04-03 The United Republic of Tanzania is a rare phenomenon in Africa the result of a merger between the former British colony of Tanganyika and the island republic of Zanzibar While there has been and still are tensions this has held together perhaps because the country has been ruled by a dominant party ever since independence It enjoyed a special aura under its first president Julius Nyerere who spoke glowingly of an African socialism which did not

quite prosper as hoped and a democracy which is admittedly better than elsewhere but not quite what it might be But the party is still there and Tanzania is doing as well as most and better than some Still while Tanzania is not as popular as before it remains an important state and is worth knowing better Given the shortage of literature on the country it is fortunate that one can fall back on this now second edition of the Historical Dictionary of Tanzania It includes information in the dictionary section on life before the colonial powers arrived what Germany and Britain did during their tenure and what has happened since independence in 1961 This is provided in xxx concise entries The chronology traces the history pre colonial colonial and independent going year by year And the introduction provides an overview Certainly not to be missed is the amazingly large bibliography
