Pinocchio's Nose:

Pinocchio Carlo Collodi, 2015-11-05 Once upon a time a carpenter finds a magic piece of wood He makes it into a puppet to be the son he s always wanted Pinocchio is very happy living with his father But he longs to be a real boy and not a puppet any more This can only happen if he learns to be good But however hard he tries he just can t help getting into mischief Pinocchio sets off into the world With a thirst for adventure but a shaky sense of right and wrong he s an easy target for the tricksters of the world Can he escape from the wicked puppet master Will he overcome temptation and learn to be brave truthful and unselfish And with the Blue Fairy s help will he become a real boy This magical Christmas production of Pinocchio opened at the New Vic Theatre Stafford in November 2004 *Pinocchio's Nose* Jerome Charyn, 1983 A fortyish disaffected Bronx intellectual who grew up in a world of subterfuge and violence identifies with Carlo Collodi s book Pinocchio creating a fantasy life that helps him cope with the unpleasant confusion of reality As he grows older his obsession becomes so complete that for long stretches of the novel real world existence is but a shadow of his puppet incarnation

Morrissey, 2014-04-04 In the first full length study in English of Carlo Collodi s *The Adventures of Pinocchio* the authors show how the checkered history of the puppet illuminates social change from the pre World War One era to the present The authors argue that most Americans know a trivialized diluted version of the tale one such source is Disney s perennial classic The authors also

discover that when adults are introduced to the real story they often deem it as unsuitable for children Placing the puppet in a variety of contexts the authors chart the progression of this childhood tale that has frequently undergone dramatic revisions to suit America's idea of children's literature

The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18

The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of *topoi* which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism
