[with a tr.] by F.G. Plaistowe and W.F. Masom** Publius Vergilius Maro,Virgil,1896 **Vergil's Georgics and the Traditions of Ancient Epic** Joseph Farrell,1991 In this important and original new book Joseph Farrell argues that

there is a detailed and extensive program of literary allusion in Vergil's Georgics moving basically from Hesiod and Aratus in the first book to Lucretius in the middle two to Homer in the fourth. This program involves what he calls analytic allusion, namely a reconstruction or interpretation of the texts alluded to, and he contends the direction of the allusion moving from Hesiod and perhaps Alexandrian poetics toward Homer and heroic epic helps to clarify the development of Vergil's poetic career which moves from the Callimacheanism of the Eclogues to the full-fledged epic of the Aeneid. Applying to the Georgics the full range of recent scholarly methodology, Farrell's pathbreaking book will be of great interest to all scholars and students of Vergil, classical literature, and literary allusion.

*Music in Art* Tom Phillips, 1997. Art loves music. From the tombs of Ancient Egypt to the late 20th-century painting and sculpture, have played their variations on musical themes. Tom Phillips examines masterpieces from the history of the visual arts that have been inspired by music. In a series of colorful images, we meet the music makers, the men and women who, in the act of playing and listening to music, have provided rich subject matter for artists throughout the centuries. The long affair between these arts had its passionate moments. The orchestral angels of the Renaissance and the seraphic choristers of the Baroque yield to the domestic music-making of the masters of the Dutch interior. The pastoral concerts of Venetian and French artists of the 17th and 18th centuries give way to the Impressionists and the still lifes and soloists of Cubism. Finally, the musical abstractions of Paul Klee and Wassily Kandinsky lead to the often ironic or iconoclastic references to music in the experimental art of the end of this century. Tom Phillips seeks out these colorful meetings between the sister arts and spins an intriguing web of anecdote and interpretation to link them through the ages. As an artist, he understands how pictures are made, and as a writer, he can convey this understanding with humor and clarity. Since he is also a composer in his own right, his insights have the added value of musical authenticity, as well as artistic authority. Each of the 50 short essays focuses on a particular work of art or contrasts two or more approaches to a similar theme. A diverse range of artists is featured, including Rembrandt, Leonardo, Veronese, Titian, Caravaggio, Renoir, Van Gogh, Matisse, and Picasso. We are introduced to composers who are painters and painters who are accomplished musicians, and learn how their thoughts can often provide the key to understanding musical and artistic styles.
